**That Nagging Backache**

**May Warn of Disordered Kidney Action**

Modern life with its hurry and worry, irregular habits, improper eating and drinking—its risk of exposure and infection—throws heavy strain on the work of the kidneys. They are apt to become over-taxed and fail to filter extra acid and other impurities from the life-giving blood.

You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling—feel constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

Try Doan's Pills. Doan's help the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recommended by grateful users everywhere. Ask your neighbor!

Here's how to **KEEP UP-TO-DATE** with Tire Improvement

Look for the date on **THOROBREDS** by **Dayton**

DATING... a brand new service of **DAYTON RUBBER RESEARCH** to help guide you to a wise tire purchase

**5 REASONS WHY** it's important to know your tire date

1. Man could not improve natural rubber. Rubber trees produce only one kind of rubber. Natural rubber compounds could be improved with difficulty.
2. Synthetic rubber can be controlled. Wearability, resiliency, and other tire qualities for better service can be more closely controlled synthetic rubber.
3. Synthetic compounds becoming better and better. Continuous development already has greatly improved synthetic tires. Science assures still better ones tomorrow.
4. Latest synthetic tires are best. Month by month, new ways to improve synthetic tire quality are developed. How can you be getting these latest improvements?
5. Look for the date on Dayton Tires. A new special service—the date of manufacture molded into every Dayton Tire so that you know it is the latest—and the best.
