

Audiences Warmly ve Concerts Of Little Symphony

...ive Audience
...or Two
...At Evening
...ance

the audience in a round of ap-
plause that brought back the direc-
tor four times, and the rendition
of two encores.
The orchestra gave two special
numbers for elementary students
in the evening performance, with
the conductor explaining the sig-
nificance of each.
"Child's Play" by Six-Ormandy,
was played with the string section
plucking the strings of their instru-
ments instead of using bows. The
effect was delightful, providing a
fast melody.—W. C. R.

During the intermission, Mr.
Swain read a letter of apprecia-
tion from the N. C. Symphony So-
ciety thanking the local people for
their support of the movement, and
the cooperation given in getting
the orchestra here. Special men-
tion was made of Mrs. Hugh A.
Love, chairman for this county.

Cpl. Tom W. Jimison Returns From India

Corporal Tom W. Jimison, of
Canton, arrived last week from
India. He is the last of four broth-
ers of the Canton area to be dis-
charged from the service after long
tours of duty with the armed
forces.
Two brothers, Garrett and Sam
Jimison served with the army in
the Pacific theater, while an older
brother, Sherrill, served almost
two years in the army.

How good is your memory?

Look at the 24 articles above for two minutes. Then take pencil and paper and write down as many as you can remember. (15 is good, 20 terrific, 24 incredible.)

Now, can you remember one other thing these assorted articles have in common? . . . Every one is made with electricity — or run by electricity — or both.

It's hard to name any manufactured article that isn't partly the product of electricity. It is basic to all industry. It provides the power that makes America the most productive nation on earth.

Testing your memory again, do you know how much the cost of home electric service has come down through the years? You may not have noticed because you kept buying more electric appliances and using more electricity. But actually, the average American family gets twice as much electricity for its money as it did 20 years ago!

Low-priced electric service — friendly and dependable — is made possible by the sound business management of America's self-supporting, tax-paying electric light and power companies.
