**MORE AND BETTER . . .**

**Telephone Service**

**MORE equipment—more people—more of every.** Being added as fast as possible to furnish more and better service.

During the year, central office equipment and other types of telephone plant will be added in nearly every place served by us. In many other places new buildings will have to be constructed or enlarged and equipment installed, before those now waiting for telephones can be served.

In the meantime, central offices are crowded with more calls than ever before. As a result, you may sometimes experience delays on your calls.

When that happens, you can help by answering your telephone promptly and when you make a call by giving the other party at least a minute's time to answer before hanging up. It will also help if you will always make sure of the number by looking it up in the directory before making a call.

Telephone folks are trying hard to give you good service with a smile and appreciate your cooperation.

**Honored by Miners**

**FULL EFFECT** of the soft coal miners' walkout was not felt on April 1—no fooling—because the miners in Pennsylvania and West Virginia were traditionally celebrating John Mitchell Day, in honor of the man (above), who headed the United Mine Workers when the 8-hour day was established. (International)

**Mice Evict Farmer From Orchard**

John T. Wall of Lilesville, Anson county, knows how it feels to be dispossessed.

Field mice have literally evicted Wall from his own orchard, 60 acres of what had been fine apple trees in the only commercial orchard in the county.

During the 1946 planting season, according to a report by Assistant Anson County Agent Clarence Early, it was necessary to replace about 200 trees throughout the orchard. It was discovered in moving dead trees that mice had caused the damage.

"About four years ago," Early said, "Mr. Wall began to lose trees. Losses continued for two years until he found that mice were at the bottom of it. The infestation of mice is quite heavy, especially on sandy soils where it is easier for rodents to dig in under trees, make beds and feed from the tree roots. In 1944 the entire orchard was littered with strychnine-treated oats and results in dead mice were good. There were virtually no mice last year but because of short labor, the orchard was not treated and again the rodents moved in, killing 140 trees.

"Now, the entire orchard has been treated against mice and Mr. Wall, who has bought a pressure-spray outfit, is conducting a thorough spring spraying campaign to protect trees from insects and disease."

**Pvt. James D. Kelly Arrives In Naples**

Private James D. Kelly, son of Mr. and Mrs. Donald Kelly, of Waynesville, Route 1, has arrived safely in Naples, and has been assigned to the 3485th Ordnance, M.A.M. Co., a unit of the Peninsular Base section of the army service force in Italy, according to information received from the post.

Pvt. Kelly was transported to the 7th replacement depot for processing according to army skill and civilian specialty. Within 36 hours he boarded the train for Leghorn and upon arriving at the latter he was sent to the first staging area to be transported to his assigned unit in the near vicinity.

The Peninsular Base section has a record of uninterrupted service in this theater extending over three years.

Pvt. Kelly was a student at the Waynesville Township high school at the time he entered the service on June 29th, 1945. He took his basic training at Camp Wheeler, Ga., before being sent overseas.

**Public Health Nurses Receive Praise For Their Work During April 8th to 13th**

Lillian Wald, of East Side, New York, is to the public health nurses what Florence Nightingale is to nurses, as independently of public health movements she developed the first nursing service. She demonstrated to the Board of Education that communicable diseases could be controlled. She adapted her techniques and skills of the hospital to what could be done in the home.

At the beginning of the 1900's the public health nurse assumed the role which she is still playing and will continue to play.

In endorsing Know Your Public Health Nurse Week, Dr. Parran, surgeon general, U. S. Public Health Service, states "America today faces a healthier future as a result of the great strides made in this field of medical service during World War II. But this added medical knowledge can be used advantageously only if prevention, as well as cure receives its proper emphasis. For this reason the observance of Know Your Public Health Nurse Week takes on added significance at this time. Public health nurses play an important part in the prevention of disease, the control of epidemics, the early detection of remediable defects, and the adoption of good health habits by school children and adults."

The public health nurse is primarily a family health worker. As such her responsibility to patient, family and community includes the following duties:

To demonstrate nursing care to the sick and to teach home nursing.

To secure the most favorable conditions possible for the patient such as diet and sanitary conditions.

To observe the health of each member of the family and to arrange for physical examination and necessary treatment. Special attention is given to poorly nourished children, and to those suffering from physical defects.

To instruct the family as to healthful habits, especially as relating to food, clothing, cleanliness, rest, exercise, recreation, fresh air and mental attitude, the ultimate object being positive health for each member.

To work toward the improvement of general standards of living and the adjustment of any family problems by personal effort

**Kelley Brothers Who Served Together In Pacific Discharged**

S/Sgt. James J. Kelley and Corporal Robert Kelley, sons of Mr. and Mrs. J. M. Kelley, of Waynesville, who served together in the Pacific theater have both been discharged and have arrived home.

The brothers were both attached to the 90th Field Artillery, of the 25th Division and served nearly a year in the Pacific.

Cpl. Kelley was in the taxi business at the time he entered the service in 1944 and Sgt. Kelley held a position with Hyatt Lumber yards.

Both men are entitled to wear the Asiatic-Pacific theater ribbon, the Philippine Liberation medal, the Philippine Liberation medal, the Good Conduct and the Victory medal.

**Breaks Liquor Store But Is Still Thirsty**

DALLAS, Tex. — This burglar should get E for effort, he didn't get much else except exercise.

A Dallas liquor store owner reported to police the intruder broke a hole in the rear wall of the store and crawled into an empty storeroom. He knocked a hole in a second wall and found himself in another empty room. He gouged a third hole, and found himself in still another empty storeroom.

He gave up.

**Wanted! Men And Women Who Are Hard Of Hearing**

To make this simple, no risk hearing test with Urine drops used with simple syringe. If you are deafened, bothered by ringing, buzzing head noises due to hardened or coagulated wax (cerumen), try the Urine Home Method test that so many say has enabled them to hear well again. You must hear better after making this simple test or you get your money back at once. Ask about Urine Ear Drops today at Smith's Cut-Rate Drug Store.

Robeson County tobacco farmers seeded 75 to 100 square yards of tobacco bed for every acre of tobacco scheduled to be set this year.

**J. R. Penland, S 1/c Returning Aboard The USS Winged Arrow**

J. R. Penland, seaman first class, husband of Mrs. Penland of Clyde, is returning to the States aboard the USS Winged Arrow, which left Guam on March 11, and will dock in Seattle.

The USS Winged Arrow is one of the navy's many attack transports which carried both fighting men and their equipment to invasion beaches and to U. S. held beaches as the U. S. navy carried out its island hopping campaign against the Japs.

**Woolen Yarns**

Woolen yarns are spun from the shorter wool fibers, left crisscross in every direction in the carding process. They are soft and fuzzy compared to worsted yarns. Woolen fabrics, from woolen yarns, are usually more loosely woven than worsteds and are used in heavier weight materials for men's and women's suitings and coatings. Woolen fabrics include tweeds, flannels, novelties and homespuns.

**ARTHRTIS**

To relieve the aching pains of Rheumatism, Arthritis, Neuritis, Neuralgia, Lumbago and Sciatica, get quick relief MYACIN. Put up in easy-to-take tablets, containing no opiate or narcotic. Must give prompt relief, or your money will be refunded in full. Clip this ad as a reminder to buy MYACIN today. Economically priced at 50c and \$1.00.

**How to Keep up-to-date with Tire Improvements**

*KNOW THESE 5 REASONS WHY DAYTON TIRES ARE DATED!*

- 1. Only one natural rubber.** The formula for rubber from trees is fixed by nature.
- 2. Man can change synthetic rubber.** Through chemistry, man changes synthetic rubber as he chooses.
- 3. Progress is swift.** Today's synthetic tire is better than yesterday's.
- 4. How to know the best tires.** Latest tires contain the latest improvements.
- 5. Latest date—best tire.** It's vital that you know when your tires were made.

That's why Dayton puts the date of manufacture on every Dayton Tire

**Now . . . no wheat used in beer or ale**

*And wheat alone can solve the problem of feeding the world's hungry*

Actually wheat has never been a large item in the brewing process—only  $\frac{2}{10,000}$  of the entire U. S. wheat crop was used in 1915:

In accordance with United States Government policy, the brewing industry has used no wheat whatever since March 1, 1946.

**OTHER MATERIALS CUT 30%**

The other grains used have been reduced by 30%—that is, to 70% of the 1945 amount.

Wheat alone can solve the problem of feeding the hungry. The grains to which the industry is now restricted, are of a variety and grade not normally consumed by the people of the world as food.

**LESS BEER AND ALE**

Altogether, the brewing industry is using 30% less materials than in 1945. This results in a proportionately lower production. But since the current demand for beer and ale is about 25% greater than a year ago, the real shortage is nearer 50%.

Consequently, your dealer will not be able to supply you with all the beer and ale you would like. We know you will understand the reason for this.

Your attention is earnestly directed to the recommendations of President Truman's Famine Emergency Committee, which are summarized in the box below.

This statement tells in clear, simple terms what each of us individually can do to help during the emergency.

**UNITED STATES BREWERS FOUNDATION**

*What the President's Famine Emergency Committee asks us all to do*

1. Save and share wheat and fat products . . . Go light on all foods that take wheat, fats and oils—save breads, macaroni, cakes, cookies, pastries and deep-fried foods. Use drippings for pan-frying. Save salad oil—use boiled dressings.
2. Buy and serve more plentiful foods . . . Balance diets with the more plentiful foods, such as potatoes, fresh fruits and vegetables.
3. Waste NO food . . . Dress up today's leftovers for tomorrow. Make every crust count with melba toast, crumb-toppings, bread puddings and stuffings. Take no more than you can eat. Clean your plate. Turn in unusable fat salvage promptly.
