other items of a like nature.

Mr. Prevost described the glue-

ing processes used, which makes

the wood stronger and more at-

tractive than solid woods. The veneers bring out the grains better than solids, he said.

The president of the firm takes a keen interest in the 350 people employed, and pointed out with pride that 70 to 80 per cent of them own their homes.

"The greatest enjoyment I have had in the 37 years spent in furaiture manufacturing in Hazelwood, has been the fine spirit of cooperation between the men and women who work with Unagusta and my-

self, and also my association with the people of Haywood County," The furniture industry in North

Carolina ranks third in the value of products manufactured and the number employed. The industry well realizes the great responsibility today, with the enormous home building program just get-

ture is second only to that of "The style and quality of furni- Prevost, secretary-treasurer, and in ture made in this section is being charge of sales, J. Aaron Prevost recognized by the nation at large

and is being appreciated by people of good taste everywhere," he continued.

Present at the meeting was Mr. ent of plant No. two.

Fold sheets hern to hem and pin with the small been out in hanging on line. Hang tablecloths with selv ges over the line and pin every 12 inches. Smooth two or three napkins, handkerchiefs, or washcloths all together and pin with a deep overhang. Turn pillowcases wrong side out and pin closed end well over the line. Hang towels a foot over the line. When the towels have dried, shake them to fluff, don't iron them.
