Pretty smart, Bill. You can enlist now for 11/2, 2, or 3 years and prepare yourself for a great future in aviation. The technical schools of the Army Air Forces are among the best in the world. And you can specialize in such fields as radar, television, jet-propulsion and radio. When you get out, you'll be qualified for a good job.

And in the meantime, you and your family will live a normal life and save money for the future. There are generous family allowances. Your food, quarters and clothing are free . . . and the whole family will benefit by the best of free medical and dental care.
