

'46 Wheat Crop Larger In State With Less Acres

N. C. Oat Crop Also Predicted To Be An Increase Over 1945

RALEIGH—Production of wheat in North Carolina for the year 1946 is estimated at 6,384,000 bushels or an increase of three per cent over last year's production...

Based upon reports from farmers located in all areas of the state, the estimate reported that wheat prospects have improved considerably over a month ago.

Agricultural Statistician Frank Parker said that "due to unfavorable weather and the labor situation, farmers were unable to sow as much wheat last fall as they intended to sow."

Production of wheat in the United States this year is expected to total 775,000,000 bushels, or six per cent less than last year.

North Carolina's oat crop is estimated at 9,900,000 bushels, eight per cent more than was harvested last year.

Indian Veterans Tangled Over Vote

SANTA FE, N. M.—New Mexican Indians who were granted citizenship after World War I, are asking the right to vote after World War II.

Recently two Zunis and several Navahos who had worn uniform, attempted to register as voters in McKinley County, New Mexico.

This attempt is looked upon as a test case by the Indians of New Mexico, especially the Navahos who say they are keeping close watch over the number of refusals, time, place, and names of refusing county clerks.

World Air Lines Plan Lower Rates

NEW YORK—Ten trans-Atlantic air lines proposed recently to reduce the fare between New York and London by \$50 and between New York and Paris by \$30.

John E. Slater, chairman of the North Atlantic Traffic Conference of the International Air Transport Association, announced the proposed rates, effective June 25.

The rate proposal would cut the cost to London to \$325 and to Paris \$345. Both are now \$375.
