THE BOOK CORNER

Reading From Left To Right —With— FRANCES GILBERT FRAZIER

Have you run into any arguments lately? Well, we have had so many disputes brought to our attention recently that we decided the safest and best way to settle all arguments was to "pull the book" on the contestants. Therefore, in the book store you will find Walter L. Richard's latest and most complete rulings on **GIN RUMMY**. It even included all the official laws, including "Oklahoma". Now when you think you are ready to meld a fine-looking sequence or a prosperous matched-set of lordly Kings, look in the book and see how easily the score can be kept, either with a regular score or the unit system. Of course the general idea is to "knock" before your opponent does!

And if you are not inclined toward Rummy, and want to take up that fascinating game known as Contract Bridge, there is no better time than now and no better book for beginners than "Contract Bridge", written by that world-wide bridge player, Josephine Culbertson in person. This book carries you forward from opening a new deck of cards, shuffling them and dealing right on up to the bidding of a grand slam, doubled if you please... and most important of all... made. Just read em and reap the harvest of playing every card to its highest value and the best results to you and your partner.
