THE BOOK CORNER

Reading From Left To Right

—With—

FRANCES GILBERT FRAZIER

Right this way, ladies and gentlemen. It's not too late to see the picturization of one of the most popular books recently given to a waiting world. And if it is the day after, be sure to read the Forum Motion picture edition of "Kitty," by Rosamond Marshall whose best seller, "Duchess Hotspur" has the reading public by the collective ears.

Everyone who admires famous paintings will always remember the unbelievable beauty of Gainsborough's "The Blue Boy," but they would hardly have believed the story back of this picture and the in-famous red-head who posed for it. Her name was "Kitty" and the novel gives a few more-than-intimate viewpoints of Kitty and her environment . . . and followers. Don't fail to read this book and enjoy the illustrations taken from the movie, which enhances the reading immeasurably.

One of the newest novels to appear on the book shelves and so new that the reviewers have hardly had time to give its standing as yet, is "The Unforeseen" by Dorothy McCordle.

The subject of this fascinating book is one that has been neglected by most authors and therefore is something different from the average book of today. The authoress goes into the realm of the unforeseen inasmuch as her heroine has the gift of prevision, and her life is a constant struggle trying to avoid pitfalls that lie in her path. The reader will sympathize and exult with Virgilia Wilde as she progresses through such an unusual life. And who could help but be agonized over Virgilia's torture in having to tell her idolized daughter, Nan, of impending danger! The reader will sit with clenched hands as some of the events unfold and relax with enjoyment when the tension lets up.

"Delta Wedding" by Eudora Welty is not new from the standpoint of yesterday's publication, but it is new enough to be one of the most interesting books that has come out of a Mississippi locale.

Laura McRaven, nine years old, starts on her first journey alone; she was going to visit her mother's

people, the Fairchilds, at their plantation named Shellmound. And from then on, excitement looms fast and furious for Laura and her vivacious cousins. In and out of fascinating and exciting episodes so fast that the reader finds himself breathless in his endeavor to keep pace with these youngsters. And all of the family whom Laura is visiting find themselves in the same exhausted condition at the expiration of the week. Come on to the "Delta Wedding."

Sgt. Bill Swift Discharged From Army

Sgt. Bill Swift, son of Mr. and Mrs. W. F. Swift, was discharged during the week from Fort Bragg. He entered the service in July, 1944, and took his basic training at Camp Wolters, Texas.

Sgt. Swift served for eight months in the European theater and was on combat and also in the army of occupation. Since his return to the States he has been stationed first at Camp Swift, Texas, and later at Camp Carson, Colo.

At the time he entered the service Sgt. Swift had been employed by the Newport News Shipbuilding and Dry Dock Company for seven years. He is entitled to wear the Combat Infantryman badge, the European theater of operations ribbon, the Victory medal, the good conduct ribbon, and the army of occupation badge.

English Road Strewn With Stolen Treasure

LONDON—Jewels and art treasures valued at \$160,000, stolen during the war from a Yorkshire estate, were found Sunday strewn along a highway between Sheffield and Manchester.

A constable discovered the mass of silver, porcelain and other valuables, packed in chests and other boxes.

The treasure, owned by the late Louis Cartier, famous jeweler, was hidden in the garage of Ingmire Hall, Sotrage Place, Yorkshire, in 1939. The theft was discovered last November although, presumably, it had occurred several months earlier.
