Waynesville Summer Players To Open Season On Tuesday, July 16th

Plans are being made for a gala formal opening for the first night, on July 16th of the Waynesville Summer Players season, Maurice Geoffrey, director of the "Theatre In The Sky," announced yesterday. With "Claudia" as the opening play the series gets off to a brilliant start with one of the funniest comedies ever written. Rose Frankens comedy success is based on her "Claudia and David" stories that have endeared the character of Claudia to millions of readers.

With special scenery and lighting effects installed in the High School Auditorium this will be Waynesville's first real opening night in many years. Roseanne Thomas is in charge of the stage settings and Mr. Geoffrey has spared no expense in electrical equipment in order to provide the most elaborate effects ever seen here. Costuming is under the supervision of Elma Irene Geoffrey.

Phyllis Luis, talented actress of stage and television, will take the leading role of "Claudia." Miss Luis has served as a member of the W. A. C. for the past two years and was only released from service last Friday in time to join the company here for rehearsals. She flew to Chicago to pick up clothes and stage wardrobe and then flew to Asheville, arriving here Saturday afternoon. While in service Miss Luis was leading lady of Geoffrey's Third Air Force Guild during the first year of the war and has recently been doing radio work for the War Department from the Pentagon Bldg., in Washington.

Appearing as David, Claudia's husband, will be W. Lawrence Benson, who arrived here early last week with Mr. and Mrs. Geoffrey to make advance preparations for the season. Also recently released from the Air Corps, Benson is well known in radio and dramatic stock and was in a New York production of "Chimes of Normandy" before the war. He has also played with great success in the dramas of Ibsen.

Grace Shiner, well known Claudia actress, plays the third important role of the play, Claudia's Mother, Mrs. Brown. Miss Shiner is here as guest artist for the first two plays of the season and will then return to Chicago for an appearance at the famous Michiana Shores theatre. A talented actress both in "character" and "straight" parts she has appeared in "The Danish Cheek," "Arsenic and Old Lace," "Post Road" and many others. Miss Shiner will be seen in a new Broadway production to open in the fall.

The supporting cast of "Claudia" includes Louise Gagnon, June Cole, Cecelia Stathakis and Monroe Lewis, all well known in the theatre world.

The company, consisting of fifteen players and technicians are now in rehearsal and the auditorium on Brown Avenue is a hive of activity as the troupe makes ready for the opening night.

A new play will be presented each week, running for four performances only, Tuesday through Friday. The curtain rises at 8:15 p. m. Season tickets for the five plays will be on sale through next Saturday. They are available at Watkins Chevrolet Company, The Chamber of Commerce, Bradley's Store and The Waynesville Mountaineer. The regular ticket sale started Tuesday July 9th, at the Chamber of Commerce office on Main street and at the auditorium. Reservations may be made by phoning 175. The balcony has been reserved for colored patrons of the theatre.

Summer Camp Set For Aug. 15-23 By State Guard

The North Carolina State Guard will hold their annual summer camp at Camp Pendleton, Va. the week of August 15-23, according to an announcement by the state adjutant-general, J. Van B. Metts.

The local unit, which is Headquarters and Service company for the second regiment, has been preparing for the summer encampment in recent meetings. Special training in their duties has been given each Tuesday night under the direction of Capt. James S. Davis, company commander.

Of the state's 1,600 guardsmen, at least 1,430 are expected to attend the summer field training, which formerly has been held at Fort Bragg but this year will be on the coast near Virginia Beach.

Training this year will stress the maintenance of internal security in the state as well as the normal basic training and field work. The daily program is to be arranged so that all work will be completed during the mornings, and the guardsmen will be free for recreation after 4 p. m. each day.

Ways To Save Sugar In Preserving Fruit

Careful planning in the use of sugar allocations will assure ways to preserve the maximum amount of fruits for canning, says Mrs. Mary L. McAllister, Extension Economist in Food Conservation and Marketing at State College.

"The food problems are as great, if not greater, than they were at any time during the war years," she points out.

Urging the continued use of the wartime rule for sugar, one-half cup per quart of fruit, Mrs. McAllister offers the following suggestions for substituting honey and corn syrup to replace part of the sugar in canning fruits and in making jams, jellies, and preserves.

In canning fruits, honey may replace as much as 1/2 the sugar called for in the canning recipe; corn syrup 1/3 the sugar.

For jams and preserves, sugar should be weighed rather than measured by cupfuls. In making substitutions by cupfuls rather than by weight, 1 pound of sugar equals about 2 cups sugar and 1 pound honey or corn syrup measures approximately 1 1/3 cups. With corn syrup or honey replace up to half the weight of sugar called for in the recipe.

FOOD COUNCIL BEGINS WORK

WASHINGTON—Joint announcement by President Truman and the Prime Ministers of Great Britain and Canada recorded that the newly formed International Emergency Food Council will take over the functions of the Combine Food Board which is terminated July 1.

Old Logging Train Boiler Will Steam Up New Laundry

Steam for James Moody's new laundry now going up on Boyd Avenue will be furnished by a 1909 model train engine boiler that used to haul logging trains in Jackson county.

The boiler, with its smokestack and two sand humps on the top, was purchased from the Blackwood Lumber company at East La Port and hauled by auto-trailer here. Unloaded by the jack-and-wrecker method, it will be set up finally behind the recently-completed stone structure.

It has been inspected, found safe for several years use, and insured. Mr. Moody is pleased to get this boiler since equipment of that type is so difficult to find. About half of his presses and other equipment has arrived, and he expects to begin business before summer ends.

However, the man that gets the

Capital Letters

of Rockingham County, Tom Pearson of Nash, LeRoy Martin of Raleigh, John Kerr, Jr., of Warren, Brandon Hodges of Buncombe, Irving Carlyle of Winston-Salem, all pretty good men. They must not only figure what State expenses will be from 1947 to 1949, but what the State's income will be. This commission is far and away the most important of any of the bodies deriving their power from State government.

NOTES—What is this talk about Undersecretary of War Kenneth Royal (of Goldsboro) planning to retire from this position next spring to run for Governor? Answer: Nothing. He would like to be Governor, but isn't sure he could make it. . . . been out of the swing too long.

With another big raise for all Federal employees coming on, the State is fearful of losing more valuable stenographers. . . . The turnover is pretty terrific right now. . . . Several State bulletins are now being held up because of the unavailability of slick paper. It's all been grabbed by national magazines. 100 new ones made their appearance in May and June. . . . Had John Folger beaten Thurmond Chatham (in the Fifth) by less than 500 votes instead of more than 2,000 you would now be hearing of some knock-down-drag-out battles between some election officials in Raleigh and those in Stokes County. As it is, any minor change in the ballots would make no difference.

Henderson Bean Crop Harvest Looks Bright

HENDERSONVILLE.—Henderson County, fast developing into one of the South's leading bean growing centers, has begun harvesting its snap bean crop, with the price outlook described as "very encouraging" by most growers.

About 200 migrant workers are ready to aid in the harvest, with 175 more coming from the Bahamas next week. Two hundred more from the Bahamas are expected later.

Analyze your kitchen from the point of view of the woman who uses it. You will find that the greatest deficiency in the average kitchen is the lack of convenient storage space and work surface. In 90% of the homes that the housewife wants are modern facilities for cleaning, storage, and preparation.

job of firing the boiler, will be a little handicapped in playing Casey Jones. "We've got the whistle," explains Mr. Moody, "but no bell."

THOUSANDS ACCLAIM WONDERFUL 2-WAY TREATMENT FOR MUSCULAR

ACHES & PAINS

The fame of LAKEN'S 9 DROPS has spread swiftly. Everywhere thankful users are praising it. If you suffer from rheumatic, arthritic, neuritic pains, backache or painful joints due to non-organic causes, try this phenomenal, new, 2-way treatment TODAY. Take as directed. You have nothing to lose as your money will be returned if you do not enjoy symptomatic relief. Don't delay!

"How to save money on your electric bill"

A FEW SUGGESTIONS BY MR. PODSNAP

1 Throw away your electric clock and buy a sun-dial. Of course, it won't wake you up for work, but think of the fun you'll have trying to figure out what time it is—on sunny days, anyway. And you'll be saving about 5c every month! At that rate, you'll have the sun-dial almost paid for in only 41 years!

2 Donate your electric washer to an orphanage and start doing your wash by hand. In one month, you'll actually have saved 8c! At the end of a year, you'll have almost enough money to pay for a good strong washboard, which you'll be needing by then. The exercise will do you worlds of good, and keep you out of mischief for hours and hours at a time.

3 Turn off your radio during "The Electric Hour" on Sunday afternoon. Of course, you'll miss a wonderful program, but you'll save a sixth of a penny every time you do it. In a year, that's nearly 9c. And there's no music so pleasant as those coppers clinking in your pocket!

★ ★ ★

Watch for more of these practical money-saving suggestions by Mr. Podsnap. He really knows his subject. We hope he'll help you realize how many jobs electricity does for you and how little it costs for each.
