## It Could Be Worse

We all more or less complain about shortages, but when we read of other countries and their current lean year of food, we feel that Phone 137 instead of complaints we should register contitude:

It is reported that at present the Germans have almost no fats or oils and only one-fifth of a pound of sugar per person, per month,

Perhaps this privation will be good for the Germans, yet it mucht have another effect. They might begin to dream again of what it would be like to be the victor instead of the \$3.00 compared. At any rate they are tasting the 1.75 diegs of war now, which is their just dues from the havor they have brought to others. \$4.00 though the tragedy is that so many innoceat 2.25 ones are being made to suffer along with the real offenders.

## Good Carolina News

One of the best sterns of North Carolina news recently published was the disclosure that a \$13,105,000 program of general hosnotal building and expansion awaits only such improvement in conditions in the construction field as will make it possible to proceed,

That is important news not only for the 28 communities directly involved but also for the State as a whole,

The investment of more than \$13 million in expansion of the general hospital facilities of North Carolina will represent a substantial advance toward the goal of making hospital facilities available to and within convenient reach of all the people of the State at roof which all ritrons should desire to see reached at the earliest date practical.

SELF REGULATION

## Our Responsibility

The sole aim of the United States Brewers Foundation is that the sale of beer in North Carolina shall conform to the highest plan of social responsibility and law observance.

Toward this end, a definite program of education and sell-re ulation within the industry, and in full cooperation with la enforcement agencies, has been in operation for more than seven years.

Field men regularly check on the places where beer is sold Where necessary, the state director warns an operator of cerning certain corrections that must be made. In such case most retailers respond quickly. As to the few who do not step are taken to eliminate them.

All branches of the brewing industry are pledged to the tenance of wholesome conditions wherever beer is sold
