 There are still a number of vacancies in the school which will probably be taken care of by the opening date. Mr. Hutchins states, pointing out that the Canton school like all others in the state has faced a major crisis this year in the teacher shortage.
 Mr. Hutchins is making an appeal to the people of Canton to supply adequate homes for ten of the faculty members, who are not local residents.
 Teacher placements in the Canton schools will be announced later.

BATTLESHIP'S FLAG TO HER STATE

 who wanted a school here. Pres. Hunter explained. The State University is setting up centers in Asheville, Murphy and Hendersonville, and other places about North Carolina, which students from Haywood may attend.

Supt. Jack Messer, who says that a large number of prospective students for the center here came to see him Monday, states that he will try to make arrangements for a bus from Waynesville to take students to Cullowhee if a sufficient number desire this service.
 John Williams, Veterans Administration representative for this area, had been urged by higher officials in that organization to promote the center for Waynesville, and at the time arrangements were being made here had assured the group that the contract would be a matter of routine. He made a telephone call to the regional office in Winston-Salem during the discussion, and a representative of the V. A. was sent to Cullowhee with the contract.
 It was decided at that time, with so much to be done to get the school in operation, for W.C.T.U. to go ahead on the assumption that all conditions of the contract would be fulfilled and to begin getting data on student enrollment this week. The shortage of teachers, it was explained, was a major reason why the contract conditions could not be met, the standards of such college centers requiring that three-fourths of the instructors have master's degrees.

 to get between Dillwood and Waynesville through bypasses at the various interchanges rather than take the 25-mile detour through Ironduff and Crabtree. However, this is becoming impossible, and with the opening of school will present added difficulties to commuters.
 Grading of the new cut-off is not expected to be completed until October now. However, though the usual policy is to have paving take over after the graders finish, it is practical to have the two types of construction proceed simultaneously. This is what Mr. Walker has recommended. However, it will not be until September when the Highway Commission lets further contracts, and whether his recommendation will be approved or not can not be known until next month.

Wainwright Backs Dignity Of Rank

LINCOLN, Neb. — Gen. Jonathan M. Wainwright believes there is such a thing as going too far with democracy in the army.
 "Some people think that a man of my age and rank should mix on terms of equality with every 'huck soldier,'" the hero of Bataan and Corregidor commented at a press conference.
 "But that would be the surest way in the world of breaking down discipline. And without discipline, no army is any good."
 "I attempt to return the salute of every soldier I meet, with a greeting such as 'good morning' or 'good evening' as the case may be. When a soldier opens the door of my car, I thank him. In that way, I believe in democracy in the army, but as to terms of social equality—I do not believe we should."
 General Wainwright, now in command of the Fourth Army at Fort Sam Houston, emphasized, however, that "whether I believe in it or not, the instructions of the War Department will be carried out fully and loyally in the command."

Moscow Briefs Book By Elliott Roosevelt

LONDON — (Reuters) — Moscow Radio has broadcast a brief summary of the book written by Elliott Roosevelt, son of the former United States President, in which former British Prime Minister Winston Churchill, among others, was criticized.
 "Elliott Roosevelt calls upon the United States to return to the policy of unity between the three great powers sharply criticizing those reactionaries who, he writes, have reduced American foreign policy to the atom bomb and are prepared to turn their civilization into a heap of ruins," said Moscow radio.
 "Elliott Roosevelt, especially blames Churchill, James Byrnes, Senator Arthur Vandenberg, and the Hearst, Scripps-Howard and McCormack press, which is fomenting fresh conflict among the nations."

Texans Expand A Bit, Buy South Dakota Land

SIOUX FALLS, S. D. — Texas is a large state, but residents down there are looking for additional territory.
 "No, it's not a question of annexation, but does border on the 'don't fence me in' idea."
 Two Texans recently purchased 26,000 acres of ranch land in western South Dakota and are shipping cattle in to fatten for market. Reports from Philip, S. D., say other Texans are dickering for more land.
 Pioneers recall the days when cattle from the Lone Star State were driven overland in large herds to fatten on the lush prairie grass in the Dakotas.
