A general face-lifting program of the fair's grounds and buildings has begun. Thirty-six carpenters and laborers have begun building exhibit booths, moving the grounds and doing extensive repair work to the various halls. Dorton plans for exhibit booths this year to be so constructed that there will be little for the exhibitors to do except to set up their displays.

The most ambitious program planned so far is concerned with the dairy exhibit, which will present the dariy picture "from the grass to the glass" and will use one end of the main exhibit hall, acording to Dr. Dorton. Other large exhibits will present tobacco and

PHILADELPHIA, Pa .- A heavyset man entered the taxi of George Phillip, driver drew a gun and forced Phillip to surrender his money. The driver suddenly remembered his own gun and start theif, Phillip went to a police station to report the incident. After telling officers about it, police asked him if he had a permit to carry a pistol. When he admitted that he hadn't, they locked him up, charged with lack of permit and "reckless use of firearms."

WHISKEY-It has been serioussuggested within the past few days that the State take steps to make liquor legal on a Statewide hasis, and to use at least a portion of the funds it shouldn't take all of it if we continue at our present rate of guzzling to care for the health plan.

In this way, however, we might be accused by some of sanctioning the breaking down of health on one hand to secure money to build it up on the other,

It might be that a state referendum on liquor could be held—with the assurance that whiskey money would be used for a statewide rural health program. In that event, would the drys vote wet?

So perhaps you like none of these ideas. Then where is the noney for health coming from?
