...visitor here.

"NOW, HOLD IT," interrupts another employ- ee. "With his tape we measure the proper distance for you from the camera."

"HMMM?" Enter the director, Peter Godfrey, with suggestions. How would you like an outsider kibitzing your love-making?

"THIS WAY, BUB." That Godfrey sure has a mighty smooth line. Gig seems to be thinking. No gaffers interfering now!

MORE INTERRUPTIONS as the set makeup man decides Gig's sideburns need combing. Oh well, there's a limit to everything.

LOVE CONQUERS ALL (for a few seconds, anyway). May- be it was worth waiting for!

Permits Are Required To Burn Near Woodlands

Persons Burning Brush Asked To Follow Safety Practices By Warden

From February 1 to June 1, and from October 1 to November 30, any person who builds a fire in any of the areas of woodlands under the protection of the State Forest Service must have a burning permit.

The state law which governs burning permits states that anyone who starts a fire without written permission commits a misdemeanor, with conviction for this punishable by a fine up to \$50, or imprisonment up to 30 days.

Having a permit, which may be secured from the county fire warden or an authorized representative in each community, does not relieve the person who builds the fire from other responsibility. He must, as stated on the permit, notify adjoining landowners that he plans to burn brush, keep a competent watch over the fire, and must select safe weather conditions—when there is no high wind blowing.

Wild life and forests in Haywood are already at a low ebb, comments R. E. Caldwell, the county forester, who urges the full cooperation of everyone to prevent further destruction. The large majority of folks in the county are behind fire prevention completely, and know the worthiness of taking care of our valuable woodlands.

Brush fires, carelessly handled, have caused many large-scale forest blazes. These small fires must be handled carefully, declares the forester, following the rules of safety that are a part of common knowledge and the state laws.

Burning permits may be obtained in Haywood at the following homes and offices:

M. L. McGaha, Maggie; T. W. Alexander, Cataloochee Ranch; Robert Howell, Jonathan Creek; C. H. Franklin, Cove Creek; H. F. Hoglen, Liberty; H. L. Rathbone, Fines Creek; Grady Walker, Rush

Proposed Amendment To Limit Term Of President Passed In House

WASHINGTON—(AP)—A constitutional amendment which would limit a President to two terms—a prime Republican objective—was passed by the House by a necessary two-thirds margin and then some.

The vote was 265 to 121. Every Republican on the floor voted for it, and 47 Democrats joined them.

The proposal went to the Senate, where a judiciary subcommittee already has started hearings on the question. It must pass there by a two-thirds majority, too, before it can be submitted to the States.

Then, before it becomes a part of the Constitution, it must be ratified by at least 36 States through their legislatures or by State constitutional conventions, whichever the States decide. The States have seven years in which to act.

A brief resolution in keeping with the announced program of the Republican Houses steering committee, the proposed amendment would prevent any person from serving more than two terms or parts of terms. Since it does not change the present four-year term, it fixes a maximum tenure of eight years for any White House occupant.

In some cases the tenure would be less, since a vice president succeeding to the presidency to fill a vacancy would have served part of a term and could not serve more than one more.

For example, President Truman would be eligible for only one more four-year term if the amendment is ratified by the States before he

IT TAKES PSYCHOLOGY TO OIL WHEELBARROWS

AKRON, O.—(AP)—A building contractor, troubled with punctures in pneumatic tires on his wheelbarrows, called engineers of the B. F. Goodrich Co., for help. They prescribed zero-pressure tires—a type containing an air space, but without inflated inner tubes.

But the laborers complained that the wheelbarrows were harder to push without pneumatic tires. Suspecting that this was imagination, the contractor had dummy valves put through the rim holes.

Next day, one by one, his employees told him that pushing was much easier, as "they knew it would be with pneumatic tires."

WILLYS-OVERLAND UNIVERSAL 'JEEP'

"The All-Purpose Vehicle For Farm And Industry"

See This Vehicle That Does Everything!

9 Reasons Why The 'JEEP' Can Do All It Does

- 1 THE 4-CYLINDER, 60-H. P. WILLYS-OVERLAND 'JEEP' ENGINE... which powered the military "Jeep" over billions of miles in all parts of the world has been improved for "even greater economy and more versatile performance on the farm. Its long life under the pressure of round-the-clock, round-the-calendar farm usage proves its ability to take it.
- 2 TRANSMISSION... 3 speeds forward, 1 reverse in 2-wheel-drive for economical highway travel.
- 3 TRANSFER CASE... an auxiliary gear unit, attached to the rear of the transmission, engages front-drive axle for 4-wheel-drive, used for pulling farm implements and trailed loads. Shift lever to driver's right. Transfer gear ratios, in conjunction with transmission gear ratios, give the "Jeep" six speeds forward and two reverse.
- 4 REAR DRIVE AXLE... drives the "Jeep" at 60 m.p.h. in two-wheel-drive.
- 5 FRONT-DRIVE AXLE... teams with rear axle in 4-wheel-drive for tractor work; hard pulling in mud, sand or snow; towing highway trailed loads.
- 6 SPRING AND SHOCK ABSORBERS... newly engineered for easier riding on the road or across the field.
- 7 REAR POWER TAKE-OFF... furnishes power from spline-shaft drive for power mowers, sprayers, binders, post hole augers, etc.; for pulley-drive for threshers, corn shellers, ensilage cutters, buzz saws, etc.
- 8 CENTER POWER TAKE-OFF... powers insecticide blowers, compressors, generators and other V-belt-drive equipment.
- 9 DRAW BAR... provides 9 horizontal positions and 2 heights for proper tracking of towed implements. Braced, welded iron construction gives maximum strength.

General Election Is Ordered For Japanese

TOKYO — Gen. Douglas MacArthur ordered the Japanese government to hold a general election in the spring to reflect changes in Japanese life during the past year.

The supreme commander told Premier Shigeru Yoshida in a letter that the election should be held as soon as practicable after the present diet session closes. The government announced the session will end March 27.

"I believe the time has come for a general election," MacArthur wrote. "Momentous changes in the internal structure, and in the economic outlook and in the whole fabric and pattern of Japanese life, have occurred since the last general election nearly a year ago."

MacArthur left the exact date and details to the discretion of the Japanese government. He said the legislative body to be elected should take office in time to synchronize with effective date of the new constitution, May 3.

MUSICAL PERFORMERS TO COMPETE AT GENEVA

GENEVA, Switzerland — (AP)—The third international competition for musical performers will be held here Sept. 22 to Oct. 5. Categories will include singing, piano, violin, clarinet and trumpet. Artists between 15 and 30 years of age may compete. Last year there were 354 contestants from 33 countries.
