

### Three Are Indicted In Hatchery Poisoning Charges At Pineola

**NEWLAND** — Three men indicted by the Avery county grand jury Monday on a charge of poisoning fish in connection with the loss of approximately 80,000 trout at the Pineola fish hatchery several days ago, have been released under \$5,000 bond each.

Sheriff A. T. Garland of Avery county, who made the arrests Monday night after the grand jury returned a true bill against the men, listed the defendants as Leon and Wade Vance, brothers of Pineola, and their cousin, Paul Vance, also of Pineola. Chief Deputy Sheriff Max Daniels accompanied Sheriff Garland in making the arrests.

It was indicated that the case may be called for trial early next week in Avery county superior court.

The grand jury indictment culminated several days of investigation by members of the sheriff's department and the division of game and inland fisheries. Tom L. Rollins, in charge of the Asheville office of the division of game and inland fisheries headed the investigation for that organization.

The fish ranged in length from three to 12 inches and were valued at about \$15,000. In addition to fish lost in the rearing pools, several thousand fish were estimated to have been lost in the stream above and below the hatchery.

### Senate Committee Passes Education Aid Appropriation

**WASHINGTON (AP)** — Legislation authorizing \$300,000,000 in federal aid to states for education was approved Wednesday by the Senate labor and public welfare committee.

However, Chairman Taft (R., Ohio) told a reporter he had advised the committee he was "not guaranteeing any action" on the bill by congress before its scheduled July 26 adjournment.

The bill would provide a minimum grant of \$5 per child to every state. Those states in a less favorable financial position would receive up to \$25 or more per child.

The measure gives states discretion as to whether they shall use any federal money for aid to religious or private schools.

It also provides that a state shall be ineligible for aid unless within four years of enactment of the bill it has developed a plan for expenditure of at least \$50 annually per child.

### "No Haircut, No Job," Is Army Edict

**AP Newsfeatures**  
**MUNICH** — It's breaking their hearts, but the Bavarians, who, like long hair, are going in for crew cuts.

The first clipping of the old custom has been made by the second constabulary brigade.

Brig. Gen. H. R. Gay, a spit-and-polisher of the old school, told his officers that any man who wears long hair has something wrong with him.

Orders went out and Army barbers cropped and cropped until everybody around the place looked like a freshman. The 170 German men employed around constabulary headquarters smiled with amusement and slyly combed their long locks every time they thought a shorn trooper was looking their way.

A tall, tough lieutenant called the Germans together.

"March to the barber," he barked.

They gasped. They complained. One guy said his girl would ditch him if he lost those long, curly locks. A rebel said he'd appeal.

The group retired to talk it over. The German labor office intervened and said:

"This is militarism. We've had enough of militarism from our own armies."

"No hair cut, no job," was the edict.

No job, no good American meal at midday, the Germans pondered.

### Rise In Business Expected By Top Industrial Men

A large proportion of manufacturers in New York surveyed by the Consumers and Industry Association expect an upturn in business, employment, and availability of materials during the last half of 1947.

However, the business men do not foresee any substantial decline in prices of materials.

The survey was conducted by the association's industrial research division. Six hundred firms in seven of the city's major industries—clothing, food, beverages, metal products, paper products, printing, and radio manufacturers—were queried.

Forty-two and half per cent of those questioned look for an increase in the volume of business in the second half of the year, 35.2 per cent see no change and 22.3 per cent expect a decrease.

As for employment, 43.2 per cent expect to increase their labor force, 32.5 per cent will make no change and 24.3 per cent plan to decrease.

No change in the price levels of material costs are expected by 35.9 per cent of those answering the questionnaire, although 33.9 per cent do look for lower prices, while 30.2 per cent say prices will be "still high or higher."

Improvement in material supply situation was reported envisaged by 47.9 per cent of the businessmen; 22.9 per cent say present supplies are available or ample; 18.8 per cent expect continued scarcity, and 10.4 per cent foresee no change.

Advocating some form of government assistance in expediting the housing construction are 42.7 per cent of those replying; 22.9 per cent recommend elimination of control.

Unqualified reduction of federal taxes is favored by 58.8 per cent, while 25.4 per cent want taxes reduced "as much as possible."

**CAR THIEVES GIVE COP SOME ADVICE**

OGDEN, Utah (AP) — When Police Lt. D. B. Ballantyne got back his automobile after it was stolen, the car was plastered with signs reading:

"Are you making your son a criminal? Remove the keys from your cars."

Ballantyne said the car was taken from a hall field parking lot and the thieves apparently stuck on the signs, distributed by a civic organization.

Ballantyne said no, he didn't leave his key in the car. It has a defective ignition which can't be turned off.

**WEEKLY FOLDS: EDITORS MUST GO TO SCHOOL**

CHATTANOOGA, Tenn. (AP) — The Signal Light, a weekly newspaper founded in 1938 by two boys, ages 12 and 13, will "burn no more" after June 26.

The editors, Kenneth S. Hays and DeForrest Brooke, are faced with the problem of growing up and attending college.

The paper progressed from type-written sheet to mimeographed edition to its present printed form.

**GLASS PILLOWS**

Now there's a bright side to having a "rainy season" just when you're planning on a long, relaxing stay in the country or at the seashore. Beach and yard accessories have been made that are water resistant, odor proof, fungus proof and bouncy. They can be left outdoors overnight—or for the entire season—without bad results, no matter how much it rains. The accessories are filled with resilient fiberglass that cannot absorb moisture, and covered with a waterproof fabric. They come in several gay patterns.
