The Smokies are noted for the variety of their plant life which results from the wide range in elevation, a well distributed rainfall and a relatively long growing season.

It is reported, writes Mr. Ray. that 152 species of trees are found within the Park as compared with only 85 native to Europe. The variety of plant life is so great that a scientist has reported that: "In going from the base of one of our mountains to the top, one traverses hiking only-a combined total of the same floral zones that are to be 800 miles. found in a trip from southern Tennessee to southern Canada." The same conditions provide animal life in an equally varied degree Magnificent floral displays provide interest and enjoyment to the visitor and are a main attraction. If an emergency requiring immediate cash should arise today you would arrange

to meet it. You, with a regular income, could go to the bank and borrow money; you could borrow on your life insurance; or you may have a little fund set aside for just that purpose.

But suppose you were not here. Would your widow be able to meet such emergencies? She would if you arrange now for a Jefferson Standard Emergency Fund to be used for expenses she doesn't expect. Without cost, we shall be glad to give you complete details today.
