(UP)—Lustron jointly with his wife in obtaining such a big government loan that it prompted a congressional inquiry.

Everything Staked  
"It actually isn't as simple as that. That's all the cash I invested directly, but it cost me a lot to develop the Lustron house and get control of it. The stockholders gave me 51 per cent of the stock, or about \$880,000 worth, because of my development work and know-how."

"All my personal wealth is staked as collateral for the loan. If Lustron is unable to repay the loan, I am the first person to lose. Obviously, I'm going to make certain that the loan payments are made when due."

The official is confident that Lustron will be successful. Many of his engineers were recruited from the automobile industry, where mass production is an important factor. Key men from industries which will contribute material to the house are on his board of directors.

The expression "leap year" refers to the jumping of one day in the week in leap years. Thus, March 1, 1946, fell on Friday and March 1, 1947, on Saturday but March 1, 1948, will "leap over" to Monday.

### Share-the-Alarm Clock Is Two-Family Motto

MEMPHIS, Tenn. (UP)—The McCoys and the Tabors are so neighborly that they even share one alarm clock between families. Here's how it's done:

The McCoys own the clock. The Tabors advise the McCoys the night before what time they want to be awakened.

When the alarm rings, Mrs. Lilian McCoy reaches for a cord near the bed and gives a jerk. The other end of the cord is tied to a cowbell in the Tabor home.

The Gregorian calendar gains slightly more than 44 minutes every century, making an error of one full day in about 3,261 years.

### Dr. Newton Will Not Run For Convention Post

Dr. Louie D. Newton of Atlanta, Ga., announced this week that — in keeping with the policy of his predecessors—he would not allow his name to go before the Southern Baptist convention for a third term as president.

The convention is to be held in Memphis, Tenn., May 19-23.

Dr. Newton, pastor of the Druid Hills Baptist church in Atlanta, was elected to head the Southern church convention in Miami in 1946, and was re-elected last year in St. Louis.

### Wolves Are Plentiful: But No Trained Bears

By PATRICIA CLARY  
United Press Staff Correspondent

HOLLYWOOD (UP)—Hollywood is full of wolves. Greer Garson has learned, but it doesn't have a single trained bear.

The bear for which Miss Garson and her studio executives have been scouring zoos, circuses and hibernation caves plays an important role in her new comedy, "Julia Misbehaves," in which she co-stars for the fifth time, with Walter Pidgeon.

"It's so easy for a screen writer to put a trained bear in a script. The writer ought to get out and try to find one," Miss Garson said after turning down the 14th furry candidate.

Normally, she admitted, the agencies which specialize in performing dogs, trained seals and dancing alligators would be able to dig a bear up.

"But the writers didn't know they were going to start the film in January," Miss Garson lamented. "Naturally, every intelligent bear is in hibernation. And I personally am not going to play tag with a half-ton bear just roused out of a sound sleep."

**Bears Can't Act**  
The objection to all the sides

awake bears Metro-Goldwyn-Mayer has uncovered so far is that they can't act. They just lumber through their set routines.

But Miss Garson's bear, called Macintosh, has a definite role in her movie in helping untangle the as a romantic complications.

The first of the aspirants considered was, in a word, terrifying. "He weighed 800 pounds," she said. "That was too much, pardon the expression, to bear."

Another candidate was just too friendly.

"He loved people, and so he would pad up behind them and breathe down their necks," she said. "The insurance people nearly had heart failure."

So did Miss Garson.

### COLLEGE PROFS DECLARED NOT SO ABSENT-MINDED

STATE COLLEGE, Pa. (UP)—Professors are not as absent-minded as their students, according to George I. Donovan, manager of the Student Union at Pennsylvania State College.

Of the \$7,000 worth of items found at the Union and returned last year, Donovan said:

"We almost never receive an item belonging to a professor. Women students are more forgetful than men."

Books and spectacles led the lost-and-found list, but oddities ran to a pound of butter and one student even lost his trousers.
