

SURVIVE 57 DAYS ADRIFT IN BOAT ON PACIFIC

GUAM, Marianas Islands (UP)—Three Gilbertese natives who survived a 57-day ordeal in an open boat have returned to their home island of Marinana, which they left

last Sept. 1. The long voyage started when four natives — Teitikal, Teburea, Benamina and Tukeuta—set out in a 19-foot sail boat to take a doctor to Tarawa, 28 miles distant. A storm struck them on their return trip and their craft became

disabled, leaving them adrift. One of the foursome — Teitikal — became incoherent one night, jumped overboard and was lost. The other three were finally rescued by natives of another tiny Pacific island when their badly battered boat drifted ashore.

LEAF GROUP DESIRES EXTENSION OF CROP CONTROL
The board of directors of the Bright Belt Warehouse association has approved a resolution asking Congress to extend the present agricultural program another year.

The resolution has been announced by Fred S. Royster, president of the association. Royster puts it this way: "The farm economy is too important to the entire nation to have these stabilizing laws uprooted overnight." He adds that "our organiza-

tion feels that all interests will best be served by the extension of these vital farm laws for another year — to allow Congress ample time to work out equally sound farm legislation that could form a basis of a well-planned long-range farm program."

ENLARGING EYES

Make your eyes look larger by starting eye shadow near the lashes on the middle of the upper lid. Then draw the eye shadow along the edge of the lid to the outside corner, keeping it close to the

lashes all the way toward your eyebrow and the outside corner of the eye.
U. S. per capita consumption of eye cream is 1 cent above pre-war level.
