Truman The Actor

WHEN HARRY TRUMAN became President of the United States on the death of Franklin D. Roosevelt three years ago Monday, he may have thought he was taking over just one job. But if political cartoonists can be believed, the man who entered the White House is the nation's foremost actor, playing a new character virtually every day. Here are some of the roles he has portrayed, as seen by one cartoonist—Hank Barrow of AP Newsfeatures.

Washington Letter

(Continued from Page Two)

ounces to 1,688,000,000 ounces. During the war the mint produced coins for foreign nations all over the globe and made medals for all the armed forces of the United States. During the peak year, 1945, the mint made 9,000,000 medals.

With the exception of the Goddess of Liberty, Mrs. Ross is the only woman to have her likeness on a medal or coin produced by the U. S. Mint. Presidents, secretaries of the treasury, and mint directors automatically get medals struck for them. Mrs. Ross is the first woman to direct the mint. She is the first woman to have her name on the cornerstone of a federal building.

Mrs. Ross said that once she got into the mint job she "worked good and hard, found it fascinating and that's all there is to it." She says she works a good deal of the time on a 24-hour seven-day basis, at top speed. Because of this pressure and the difficulty of getting tenants, she recently sold her century-old 200-acre tobacco plantation in nearby Maryland and a 250-acre stock and grain farm in Virginia.

She lives alone in an old-fashioned nine-room apartment in the capitol. It is filled with antiques she has collected from all parts of the country. She says she would like to spend her next vacation "just staying home."

ROLLING PIN STANDS TEST

WATERVLIET, N. Y. (UP) — A rolling pin, at least 100 years old and possibly nearer to 200, is the prized possession of Mrs. Joseph Case. Fashioned of solid cherry wood, the rolling pin once belonged to Clara Barton, founder of the American Red Cross. Mrs. Case, a great-great niece of Miss Barton, still uses it to roll out pie crusts and cookies.

Rambling 'Round

touch with a business man and we telephoned his house. His young son gave us the information: "Oh, he's out to the airport." The young man's voice was a grand mixture of despair, depression, disgust and most of all DESERTION.

Golden nuggets springing up in the corner of the courthouse lawn. A bunch of purple violets on a charming lady's coat.

The lush of apple blossoms and the permeating odor of their fragrance.

Trees nodding in friendly fashion to passers-by.

The sun pushing clouds aside to peek out.

A huge truck carrying four brand-new automobiles still in their wrappings.

And a bright new red car with its entire back bashed in as though Eagles Nest had fallen on it.

The startled jump of a pedestrian following a blast from a parked car.

And all of these things glimpsed on a short walk down Main street.

CATHOLIC PRIEST IS ARGENTINE SOLON

BUENOS AIRES (AP) — For the first time in modern Argentine history a Catholic priest will sit in congress. The Rev. Virgilio M. Filippo, personal friend and ecclesiastical aide to President Peron, was swept into office in the recent election.

Father Filippo is probably the only priest in a Latin American parliament. Priests were prominent figures in Argentina's fight for independence from Spain. The clergymen also have served in provincial legislatures.

Electric irons that are forgotten and left on cost the U. S. 300 fires a week.

Mayor Booms Fund Collections For Charles City

CHARLES CITY, Iowa, Harold S. Henry, 55-year-old retired newspaper publisher, is a mayor who can supplement city funds by personal solicitations.

When it became apparent that \$80,000 on bonds voted for construction of a municipal swimming pool would not suffice, Henry conducted a one-man solicitation that brought in \$25,000. The fund now is being supplemented by a house-to-house canvass to raise another \$19,500.

He directed the drive which raised \$100,000 for a community project to build between 300 and 500 homes. Other accomplishments include:

Raised \$14,000 as community chest chairman in 1947 and now is serving as community chest vice chairman.

Served as 1947 Floyd county Red Cross drive chairman in which \$7,362.10 was collected with the goal of \$2,694.

Personally sold 2,000 shares of Charles City Building and Loan Association stock at \$100 a share. He's president of the organization.

Worked out with the city council an arrangement by which J. E. Armstrong, Waterloo industrialist, agreed to build 40 new houses this year and next on property which he owns here.

As mayor he is proud of the 4,700 feet of sewer laid during his administration; installation of parking meters which will bring in an estimated \$20,000 a year; and imposition of a sewer rental fee amounting to 40 per cent of water bills, which will net an estimated \$15,000 annually.

One of the oldest rings extant is a gold Egyptian ring found at Ghizeh and bearing the inscription of Cheops for whose tomb one of the pyramids was built.

829 Tar Heels Lost Drivers License In March For Driving While Drunk

During March, 829 persons in North Carolina lost their driving licenses because of drunken driving, the Motor Vehicles Department has announced. This compared with 783 persons losing their licenses for the same offense in March of last year.

The March convictions brought drunken driving convictions for 1948 to 2,400.

Revocations and suspensions processed during March totaled 1,284. That figure included 103 persons caught driving drunk outside the state, 69 driving drunk and miscellaneous; 50 driving after license had been revoked; 21 for two offenses of reckless driving; 33 for speeding over 75 miles per hour; 18 for larceny of automobile; 40 for transportation liquor; 11 for speeding over 55 miles per hour and reckless driving; 10 for two offenses of speeding over 55 miles per hour.

Thirteen persons lost their driving privileges for being habitual violators of traffic laws; 8 for failure to comply with the Financial Responsibility Act; four for incompetency; and three for involuntary manslaughter.

Nineteen persons had their licenses revoked for two offenses of driving drunk, and two persons for three drunken driving convictions. For a second conviction of drunken driving, the offender's license is revoked for three years, and for a third conviction, it is revoked permanently.

A total of 7,079 others were convicted of traffic violations on North Carolina streets and highways during March, but these offenses did

ANTHONY EDEN'S TIE IS SAID TO BE WRINKLED

LONDON (AP) — Anthony Eden, who has appeared on world best-dressed-man lists, has been reprimanded by the magazine Tailor and Cutter for not tying his tie neatly.

This internationally circulated organ of the men's wear trade said it could distinctly see yesterday's creases in ties worn by Britain's former foreign minister in recent photographs.

DIESEL STUDY PROMOTED

ITHACA, N. Y. (UP) — The College of Engineering of Cornell University and the Diesel Engine Manufacturers' Association will conduct a week-long Diesel engineering symposium here this summer. The program, scheduled for Aug. 30 to Sept. 4, is intended to promote more effective instruction in Diesel engineering and closer relations between colleges and industry.

not constitute revocation or suspension on first offense.

Greatest number of offenses in this class were for speeding, with 1,571 convictions, bringing to 7,329 the total number of speeding convictions this year. Other violations, failing to have driver's license, 133; faulty equipment, 528; improper lights, 309; running through red light, 319; passing school bus loading or unloading, 77; passing on curve, 36; failing to dim lights, 52; passing on hill, 40.

Capital Letters

(Continued from Page Two)

hog raiser who has been running for governor since 1944, gave this bit of advice to the other candidates last week: "Don't take the campaign so damned serious; only one of you is going to be governor anyhow."

Mayne Albright is receiving a great deal of support throughout the state from Carolina alumni . . . and virtually every college in North Carolina has, or is forming, an Albright for governor organization . . . these clubs are being led by veterans . . . Time was, when college students had little voting strength because of their youth—but now most of the men are veterans—and they are turning to Albright.

Although Charlie Johnson claims he is not a machine man, every speaker of the house for the past 12 years is supporting him, and two of them are managing his campaign.

A year ago when Kerr Scott brought the dairy products boys in line so as to provide the state with high standard milk, they threatened to "beat that man if he runs for commissioner of agriculture again" . . . but Scott moved straight ahead with his program . . . Now virtually all of them, including George Coble of Lexington, are supporting him for governor . . . not because they like him, but because he renewed the public's confidence in the dairy industry.

A new table tennis ball projector, capable of delivering balls at a 60 foot per second or 40 mile an hour clip, has been demonstrated.
