## A Fine Performance

The members of the Waynesville Township high school band and glee club, together with their director, Charles Isley, should feel superbly happy over their performance last Thursday evening.

The audience which packed the auditorium showed their appreciation of the talent of musicians by their round after round of applause.

Perhaps the happiest man of all present, was W. A. Bradley, chairman of the band committee. He and his associates have worked hard and long on the band, and the dedication of the last number to Mr. Bradley by rights made him the happiest man present.

Our band and glee club are among those things which make this a good place to live.

## A Great Possibility

Have you ever stopped to consider what a golden opportunity this community has for a three-way development?

Take Lake Junaluska, for instance. A couple of modern year round hotels there, for commercial use, and catering to pre-season and after-season conventions, could easily make that the tourist and recreational center of the community.

Hazlewood is already the industrial center, and has great possibilities for further development along this line.

As Waynesville, being the county seat, could be the nucleus of business for the entire area.

With careful planning, and discarding petty prejudices this could be brought about, we feel, to the satisfaction and happiness of everyone.

## A Good Record

Haywood has been assigned a quota of \$250,000 to be invested in Savings Bonds, between now and June 30th.

This is a lot of money, yet the government has a two-fold purpose. First, to keep dollars away from needless spending, and to spread savings over a longer period to keep "hard times" away from the door.

The technical explanation is that money invested in savings bonds will mean the spreading of the securities on the national debt. This too, is worthy of consideration.

Haywood has always made a good record on bond investments, and even in the past few months have put more than \$60,000 into savings bonds monthly. That record, without any campaign, speaks for itself.

## The Burley Allotment

Last year Haywood farmers could have planted 333 more acres of burley tobacco. At an average of a thousand dollars per acre, that meant a loss of almost a third of a million dollars in farmer income to this county.

This year the burley acreage allotment is 1,453 acres for 1,737 farmers.

There is every reason that every acre of this allotment should be planted and carefully cultivated in burley this year. There is every indication that the prices will remain good, and burley affords a cash crop right at the time of year when farm income is the lowest.

We share the opinion of others, that Haywood will not let an allotted acre go unplanted this year.

Anyway, the World War taught us that when all Americans agree about anything they are all wrong.—Lewiston Sun.

It's dangerous for you to run from an attacking dog," says a dog trainer. It isn't if you can outrun him.

## Will Have Last Word

Proponents of a state-wide referendum on whiskey and others are directing questionnaires to candidates for governor, but there is little evidence that comparable attention is being paid to other candidates—those for the General Assembly.

The views of a governor of North Carolina on matters of policy are important. Governors recommend action to the General Assembly. In many cases those recommendations are followed. In other cases the recommendations are ignored.

In recent years the General Assembly has ignored all recommendations of the governor (whoever he happened to be) for a state-wide referendum. Under such circumstances it is well for those interested in legislation to be very mindful of the fact that members of the General Assembly have the last word on all legislative matters.

In many counties the time to take effective action will expire on April 17, only about two weeks away. Candidates for the General Assembly must file on or before April 17 or their names will not appear in the list of those to be voted for in the Democratic primary on May 29.

Voters who are interested in any question which will come before the 1939 General Assembly should find out now how the candidates from their own county stand on that question. It will be too late to get out another candidate after April 17.—The Raleigh News and Observer.

## Modern Hitching Posts

A new use, or should we say an old use, has been made of parking meters at Franklin, verified by a picture in last week's Franklin Press. The photo shows a mule "parked" on the downtown street, tethered to a parking meter, waiting stoically while its owner is on his way about the day's shopping.

Although not as good as the old hitching post, the parking meter can perform the same use: providing the police and street cleaning department are willing. We haven't inquired into the local regulations as to whether the meters are available for use by four-legged animals, as well as wheeled vehicles. It is likely that this was something omitted when the town fathers drew up the parking meter ordinance.

If we had a mule, we would look for a space occupied by one of the pint-sized Crossley automobiles that are seen puttering about town nowadays, pull in and tie up beside it. There certainly is room enough for both in one parking space. Trouble might arise, however, if the mule were to step, or sit down, on its stall mate; so maybe it isn't such a good idea after all. To keep in the good graces of all concerned, it would be better just to find an empty space and feed the meter. To tell the whole truth, if we had a mule it would stay at home and be bothered with as little as possible, and kept away from the temptation of these long-stemmed slot machines.

## Keen Competition

Our neighboring state to the north, Virginia, has announced to the world that their 1947 tourist business amounted to \$132,000,000, and a day later Michigan announced they expected their 1948 tourist business would reach \$600,000,000.

Beaches on our coast predict a banner year, and other mountain resorts are equally as optimistic.

Whew! Looks like we are going to have to offer our visitors more than scenery, rarified atmosphere and pure water, if we are to keep pace with such keen competition.

## Early Travel

Official count of travel in the Park shows that there is an increase of 7.5 per cent over the same period of last year. This tends to bear out our editorial of last week, when we predicted there would be more travel earlier this season, due to the "war clouds" which many people predict they see on the horizon.

## The Naked Truth

The State News Bureau sent out information the other day that there were three new nudist organizations in North Carolina. One at Durham, Gastonia and Asheville. At least the information came from the nudist magazine Sunshine and Health. The semi-nudist groups who parade the seacoast were not included.

"It is utterly astounding to me how fast children outgrow shoes!" exclaimed a mother. It shouldn't be. Children grow fast, and shoes don't grow at all.

An Alabama fan stole a slot machine the other day. He made the belated discovery that that's the only way to beat the thing.—Roanoke Times.

\* Just as a matter of information, Morehead City is getting a dog race track, at a cost of \$200,000.

BOY, 'AGE EMILY POST!

## Rambling 'Round

—Bits Of Human Interest News Picked Up By Members—  
—Of The Mountaineer Staff—

We've moved. You must come up and see us and all the improvements we've made. Of course, you'll think you are in a big town's newspaper office but it's us, all dressed up and too proud to be comfortable.

We're all glass-fronted with a swanky door on the angle for convenience... and we have room to expand our minds without jostling into the fellow next to us.

Every day in every way, these mountains are growing more beautiful. The soft browns have changed to green over-night and the dogwood adds its beauty to the scene. Of course, about this

time of year we develop a full-grown case of Aprilitis, and break out all over in a rash of emotional admiration for Waynesville and all surrounding territory.

His mind was wrapped in contemplation of the purchases he was about to make and he made a dash for the counter containing the articles he wished. Suddenly he was confronted by a Mama Bear and The Little Bear. But not of the Goldilocks story. To the man, these two bears were most realistic and he avows that the distance he jumped... straight up.

By JANE EADS  
WASHINGTON—Miss Lillian Middleton has most of the answers to questions asked by tourists who find their way to the Greater National Capital Committee's Information center. She gets as many as 1,500 queries a week. Most people want to know how to get in to see the Senate or the House of Representatives in session. That's easy. There are galleries on both sides of the Capitol open to the public. But some folks want to see Spencer, a famed three-foot sturgeon who died at last 10 years ago in the Department of Commerce Aquarium. Or they want to know how they can hear the footsteps of

a ghost supposed to haunt the Capitol. The other day a man from Florida fussed and fumed for more than an hour trying to get a "high class room" in this overcrowded city for \$1.

Some visitors blow into town at 9 a.m. and want to see all of Washington before they leave on an 8:30 train that night. "I sternly disapprove of this," Mrs. Middleton says. "You can't do a town of this spectacular nature without spending two weeks or a month here. It's too brain-fatiguing." She suggests that the hasty visitor take in the 20-minute White House tour between 10 a.m. and 12, the Congress

## Looking Back Over The Years

15 YEARS AGO	10 YEARS AGO	5 YEARS AGO
Ten per cent cut is made on real estate in county making a reduction of \$1,800,000 in the assessed value.	Dr. V. Howard Duckett is named delegate from the Haywood County Medical Society to meeting of State Society.	Mrs. Paul Hyatt receives check from The American Magazine for her suggestion on how to conserve coffee.
1,500,000 gladioli bulbs are being planted near here by W. E. Kirehoff.	Haywood farmers and dairymen and their wives gather at Masonic Temple for supper meeting staged in recognition of Guernsey Cattle Promotion Sale.	A scrapbook compiled by Waynesville High School students on "Schools at War" is one of five in State selected to be sent to Washington.
Apple orchards are expected to be in bloom about the 27th.	Fines Creek boys in vocational agriculture department of Fines Creek School complete 300 repair jobs and 250 construction jobs during school year.	Thirty-seven men leave for army camp.
Miss Mary Barber and Dave Felizet jointly entertain their classes from the Baptist Sunday School at an Easter Egg Hunt.	Waynesville girls win conference track meet.	Mrs. L. M. Killian, chairman, urges women to knit for the Red Cross.

## MIRROR OF YOUR MIND

Answer: He may love you as sincerely as he's capable of loving anybody, but that does not mean that he can be—or make you—happy. If a person to whom you have given no grounds for distrust is still suspicious of you, what he's really doing is "projecting" onto you the doubts and fears that are already in his mind—perhaps especially a secret feeling that he does not deserve to be loved. Until such a person can regain his confidence in himself, there will be nothing you can do, however hard you try, to make him trust you.

Will "shock treatments" cure a nervous breakdown?

Answer: Many doctors are using "shock" to treat nervous breakdowns, but others (with whom I am inclined to agree) feel that this treatment should be confined to those types of mental illness in which the patient is "inaccessibly" (Copyright, 1948, King Features Syndicate, Inc.)

## VOICE OF THE PEOPLE

Do you think Harold Stassen has much chance of getting the Republican presidential nomination?

Thomas Morgan: "I think he is probably the strongest man in that party. Dewey and Taft may get together and block his nomination, but Stassen has the most public appeal."

Charles Metcalfe: "Yes, I think he has the best chance of any of the Republican candidates. He belongs to the new school of Republicans, and the convention will want to pick a man who will get the independent vote."

Jerry Rogers: "I don't think either Stassen, Taft or Dewey will get the nomination. I look for a dark horse candidate to be picked at the convention."

R. C. Gossett: "Stassen possibly will be nominated."

## Letters To The Editor

## RURAL FIRE FIGHTING EQUIPMENT

Editor The Mountaineer,  
I was interested in reading the editorial which you have in the Mountaineer of Friday, April 16 on Rural Fire Trucks and note where a \$10,000 home near North
