

Junaluska School Has Benefit Program Tonight

An entertainment program will be given tonight at the Lake Junaluska school as a benefit to raise funds for the bookmobile drive and other school expenses, announces G. C. Cooper, principal.

The Sunny Mountain Boys, featuring Pan Handle Pete and his many musical instruments, will be presented. The popular group appears regularly on an Asheville radio program.

NOTICE OF EXECUTION SALE IN THE SUPERIOR COURT NORTH CAROLINA HAYWOOD COUNTY O. P. CREWS, Plaintiff vs. HAYWOOD COUNTY MUTUAL CANNING ASSOCIATION, INC. Defendant

By virtue of an execution directed to the undersigned from the Superior Court of Haywood County in the above-entitled action, I will, on Monday, the 10th day of May, 1948, at 11:00 o'clock A. M. at the Court House door of said County, sell to the highest bidder for cash, to satisfy said execution, all the right, title, and interest which the said Haywood County Mutual Canning Association, Inc., the defendant, has in the following described real estate, to-wit:

FIRST TRACT: BEGINNING at a stake North margin of Georgia Avenue, which stake is South 71' 45" East 97 feet from the East margin of Pine Street, and runs thence North 17' 20" East 100 feet to a stake in line between Lots Nos. 1 and 2; thence with the line between said lots South 71' 45" East 219 1/2 feet to a stake in center of the main line of Southern Railway, thence with center of said railroad South 13' 15" West 100 feet to a stake in the North margin of Georgia Avenue; thence with said margin of said avenue North 71' 45" West 225 feet to the BEGINNING, BEING the Eastern portion of Lot No. 1 in Block V of Grimbald Park as per survey and plat of John N. Shoobred, C. E., made July-December, 1922, and recorded in office of Register of Deeds of Haywood County.

SECOND TRACT: BEGINNING at a stake in line between Lots 1 and 2 in Block V of Grimbald Park, which stake is 97 feet from the Southeast margin of Pine Street and 100 feet from the Northeast margin of Georgia Avenue, and runs thence North 17' 20" East 100 feet to a stake in the line between Lots Nos. 2 and 3; thence with the line between said lots South 71' 45" East 214 feet to a stake in center of the railroad; thence with the center of the railroad South 13' 15" West 100 feet to a stake; thence with the line between Lots 1 and 2 South 71' 45" West 219 1/2 feet to the BEGINNING, BEING the Eastern portion of Lot No. 2 of Block V of Grimbald Park as per survey and plat aforesaid.

TOGETHER WITH and INCLUDING all rights and easements accruing to Haywood County Mutual Canning Association, Inc., and SUBJECT to all rights and easements accruing to Southern Railway Company under and by virtue of that agreement between said parties dated July 10, 1944, and recorded in Record of Deeds 121, page 184 et seq., Haywood County Registry, to which instrument and record reference is hereby made for all provisions and conditions thereof.

Also, by virtue of said execution, I will on Monday, the 10th day of May, 1948, at 11:30 o'clock A. M., at the site of the premises above described adjacent to Georgia Avenue in Town of Hazelwood, N. C., sell to the highest bidder for cash, to satisfy said execution, all the right, title, and interest which the said Haywood County Mutual Canning Association, Inc., the defendant, has in the following described personal property, to-wit:

- 1 Robbins 16" bean cutter
1 Mule gear R-angle with pulleys

1 Steam blanch box 20" x 24"
1 Steel split pulley 36 x 8"
1 Sprague hand packing machine
1 Straight exhaust box 24" for 2 and 2 1/2 cans
1 Packing table for No. 10 cans, homemade
1 Straight exhaust box 24" for No. 10 cans
24 Standard retort crates
6 Horizontal retorts 42 x 72"
1 Peerless steam hoist 10" beam
1 Pressure tank for water pump
1 Myers 3" well pump electric
2 Sheet iron tanks 23" x 30"
1 Cooling tank overhead conveying system
2 Three section Chisholm-Ryder bean graders
2 Model "F" C&R bean snippers
15 Standard retort crates
1 Lot, bean boxes screen sides (approximately 100)
1 Continental can elevator
1 Clipper belt lacer
1 Jacobs balance scale
1 Lot, berry crates (approximately 70)
31 4 legged stools assorted sizes
6 Fire extinguishers
1 Elec. motor 3 H.P.
1 Elec. motor geared 3/4 H.P.
1 Elec. motor 3 H.P.
1 Elec. motor 1/2 H.P. on can track
1 Elec. motor 15 H.P.
7 Erected shafts various lengths with pulleys
1 Lot, various sizes and lengths attached belting. This April 7, 1948.

R. V. WELCH, Sheriff. 1721--Apr 13-20-27 May 4

MORE ABOUT Waynesville Plant

leather outsole and the insole. The cushion does the same for shoes that air does for automobile tires by lessening shock and abrasion. Excellent Wearing Qualities Claimed

A pair of shoes can be vulcanized in an electrically heated Wellco mold in about 12 minutes. The unvulcanized latex rubber compound, reinforced with fibre, is placed in the bottom plate of the mold. Then the shoe last is placed on the plate and the mold closed. Under heat the foam rubber puffs to required thickness, fills out the mold to proper shape, and bonds itself to upper of the shoe.

The foam rubber, with its fibre reinforcement, has proved to have excellent wearing qualities, according to the company. It says tests indicate the leather outsoles, because of reduced shock and abrasion, outlast top-quality leather on men's soles.

After the sole is fabricated, it's hand-laced to the upper. The result is Wellco "Foamtrads" which Macy's in New York recently advertised in two styles.

Macy's sells the plain oxford at \$5.94 a pair and the "T-strap" or sandal type for \$6.94.

Idea Is Not New The idea of foam rubber pads for shoes is not new. Druggists have been selling separate insoles for years. But fabricating foam rubber into the sole is apparently just getting started.

The process was devised in 1932 by H. W. Rollman and members of his family. At that time, the Rollman family owned large leather and rubber footwear factories in Germany. Three years later they moved to Brussels, Belgium, and formed a new company.

Mr. Rollman later came to the United States and, with associates, organized Wellco Shoe Corporation in Waynesville in 1941. The company entered into an agreement with Dayton Rubber Co. which constructed a factory here to manufacture the rubber compounds to Wellco's formula. There is, however, no connection between the two now except that Dayton Rubber still delivers rubber to Wellco.

Wellco started making camel's hair slippers with foam rubber midsoles in 1941 and turned out 100,000 pairs before war changed its plans. Then it made hospital slippers and leggings for the Army.

Makes 5,000 Pairs a Day Now Wellco is concentrating on "Foamtrads" with production at 5,000 pairs a day. Mr. Rollman, who was elected president of the firm last November on the retirement of Leo Weil, says capacity is 7,000 pairs.

To gain a wider market for its products, which now range from camel's hair slippers to bathing beach sandals, Wellco is launching a full-page, four-color advertising campaign in six leading women's magazines.

Under present arrangements, Wellco actually is the American manufacturing company for Ro-Search, Inc., and its affiliated partnership. Mr. Rollman is president and a partner in Ro-Search.

sible that we may be at the turning point where production cannot keep up with population increases.

Certainly we are speeding up the day when we will come to that turning point if we allow our land to get away from us, the county chairman said. Every farmer has a responsibility to the country to do his part in saving our soil. Because this problem is so serious, the Agriculture Conservation Program has been provided to help farmers get this job done. Farmers using this assistance are cooperating in a national fight to save the land and to keep our soil producing the abundance needed to keep the nation well fed.

That's why it's so important that farmers who have made farm plans for carrying out conservation practices follow through on those plans and actually carry out the conservation practices.

MORE ABOUT Democrats

(Continued From Page One)

At the present time, with a five man staff, runs approximately \$13,000 annually, but they have been able to meet the operating cost from the receipts taken in from the various activities including membership fees.

"This committee realizes that a project of this magnitude could only be headed by a permanent organization, such as the Chamber of Commerce, representing all the various groups of our community, therefore this committee has directed its report to the Chamber of Commerce for consideration."

"Any further information or facts which this committee now has or is able to acquire will be furnished at any time requested."

Members of the committee who made the trip to Valdese were Mr. Bradley, R. L. Prevost, C. N. Allen, Richard Barber and David Felmet.

Mr. Bradley, in discussing the recreational report, commented that the Valdese facilities received a major share of support from the neighboring textile plants, who paid one-half of the employee memberships. He stated that in his opinion the best method of securing a center here would be through tax support, but that there are several technicalities which stand in the way of presenting a tax vote.

He also stated that it would take considerable promotion to enable a tax vote to be carried, and that the Chamber of Commerce is best suited to undertake work of this nature. It is his opinion also that the best plan would be to attempt an "equate, if costly, recreational program, rather than to start on

at the banquet included E. Hoover Taft of Greenville, state president of Young Democratic clubs; Leonard McKeithern of Pinehurst, state organizer; Fred Y. Campbell of Waynesville, western organizer; Mrs. Mary Elmore Burgess of Waynesville, district vice-chairman and Mr. Elmore.

Following the banquet, a square dance was held at the Waynesville armory under the direction of Richard Queen of Waynesville, entertainment chairman.

Rotarians Hear Discussion On School Problems

M. H. Bowles, district superintendent, discussed the school program before the Rotary Club last Friday. Mr. Bowles pointed out the method of assisting students select their schedules of courses throughout high school.

Using a spring registration sheet as a basis of explanation, he stressed the fact that students are being encouraged to take more subjects, rather than major in one or two with high marks. "We feel it better that they know something about many things, and prepare for the world, rather than spend their time on just a few selected subjects."

Mr. Bowles pointed out the changes in methods of teaching, and the reaction of students to the plans that are being brought up to date.

"Mass teaching of students is obsolete. The trend today is to teach each individual student as far as practical. Each student presents a different problem, and must be handled as such for best results," he continued.

It has been estimated that Americans put more than ten times as much money into gambling machines in 1941 as they did in 1929.

a small scale with the intention of expanding in later years. "You can't do a job like this half way," he stated. "It is best to either do it right or not do it at all."

MORE ABOUT National Forests

(Continued from Page One)

in the nearby vicinity. The commission also had a report of tentative plans of the National Forest Service for development of the Roan Mountain area in Mitchell county. The commission showed much interest and are seeking further information of the plans.

In view of the National Forest projects, the commission voted to hold a meeting with officials of the Forestry Service between May 15 and June 15th, to further discuss contemplated programs.

Francis J. Heazel, of Asheville, reported two trips to Washington in an effort to get Congressional appropriations for further development of the Great Smoky Mountains National Park. Present plans are to hold a joint meeting with officials of Tennessee soon and map plans for a follow-up meeting on appropriations.

Mr. Ray reported that considerable interest has been shown in getting the National Park Service to restock the Great Smokies with deer. He reported that food conditions in many areas of the park were favorable, while certain areas were not suitable for supporting deer. The Park Service will determine whether deer originally lived in the Smokies, before making their decision.

Those attending the meeting Monday, besides Mr. Ray, were: Francis J. Heazel, of Asheville; R. U. Sutton, Sylva; Percy Ferebee, of Andrews; E. C. Guy, of Newland; W. R. Winkler, Boone; and C. M. Douglas, of Brevard, secretary.
