Sentinels of Health

Don't Neglect Them! Nature designed the kidneys to do a marvelous job. Their task is to keep a flowing blood stream free of an excess of toxic impurities. The act of living—life itself—a constantly producing waste matter the kidneys must remove from the blood if good health is to endure. When the kidneys fail to function as Nature intended, there is retention of waste that may cause body-wide distress. One may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel tired, nervous, all worn out. Frequent, scanty or burning passages are sometimes further evidence of kidney or bladder disturbance. The recognized and proper treatment is a diuretic medicine to help the kidneys get rid of excess poisons—body waste. Doan's Pills. They have had more than forty years of public approval. Are endorsed the country over. Insect on Doan's. Sold at all drug stores.

Marion Bridges Attends Flyers Breakfast Club

Marion Bridges, Waynesville flyer, was a guest at the breakfast given for the South Carolina Breakfast club by the Macon Flying Service in Franklin Sunday morning.

More than 2,000 persons witnessed the exhibition of flying which was staged by about 40 planes from Georgia, South Carolina, North Carolina and Tennessee.

Guy E. Houk, Macon county superintendent of public instruction, was master of ceremonies at the breakfast and presented humorous prizes for accomplishments such as flying the longest distance and making the worst landing.

The Aviation Pilots Breakfast club, which was formed in 1938, is one of the oldest in the world.

Rural Road In Beavertown Paved

A mile of country road was surfaced last week with asphalt—the stretch of road at the corporate limits of Canton, extending to the intersection of Crabtree and Clyde roads.

Grading work on the stretch was done last fall, but surfacing was held up until warm weather. The Beavertown Road near Canton is under construction as the next project for re-working.
