Tar Heels Swinging Towards Dry Column

Some political experts have been trying to figure what happened to bring about that nine county landslide against the sale of beer and wine the vote in some instances being more than 10 to 1 Editorial writers in and out of the State have attempted to provide the answer Something wrong, they say, in handling or supervising the business by the beer and wine industries. With 18 Carolina counties outlawing the traffic at the polls there is naturally the feeling or belief that North Carolina may be heading toward statewide prohibition. Ardent dry leaders are insisting it will come to that if the legislature gives the green light.

Looks Like Same Old Line Up Fight

Now that the Supreme Court has ruled, North Carolina voters in November may shoot their ballots for one of four candidates. But if one listens to political observers who know their politics best, it will be the same old contest, between

Austrians Listing Soviet 'Misdeeds'

VIENNA (UP) - Parliamentary quarters report that the Austrian government is preparing an "official white book on the black deeds of the Soviets committed during their occupation of Austria,"

Officials said the book, which 'extensively exposes all Soviet excesses during the Austrian occupation, will be published for all the world to read in case Russia does not agree to sign an Austrian treaty in the near future."

The book, which is to be completed in about two months, will contain several hundred pages, the officials said

The officials said the government started colleting data on unjustifiable Soviet actions in Austria" as early as mid-1947. Early this year it was decided to assign several officials of every government agency to the task to collect the data in a "more streamined operation."

"Say," asked the first, "it's too is preparing the book "to have it The officials said the povernment bad about your arm. How long will handy in case the opportunity arises for Austria to show the world how the country was wronged by

The officials said the names of the people working on the book were "kept secret to protect them from any Soviet reprisals."

An electrical manufacturer reports that synthetic insulating materials now under development by chemists promise more efficient use of electric power at lower cost,
