

Library Notes

By MARGARET JOHNSTON
County Librarian

A LITTLE OVERDUE

The past week we received from Laverne Okla. a copy of "North Carolina and its resources." On the title page it was found to be October 20, 1931. You, too, may find some old library books on your book shelves. If you do, please bring them to me. No, we won't say anything but "Thank You" for your contribution.

Most people in our county are not interested about the other side of the reading. Quite often a book is left on a shelf. I don't want to take more than my share. Sometimes you might want to read some of these. On the other hand we know into the individual, who says "Nobody else would read this book." Don't ever say that! That is a guess, just the look they do.

Books may be removed by tele-

'Babe' And 'Butch' Present Their New Family

"Babe" (left), two and a half year-old black cocker spaniel, looks over the 12 puppies of her third litter in 14 months at an animal hospital in Fayetteville, N. C. "Butch", the papa, strikes an heroic pose at right. "Babe's" three litters add up to 34 pups, 33 of which survived. The dogs are owned by Capt. and Mrs. John F. Jenkins of Fort Bragg. (AP Photo.)

Jim Heatherly Serv. Sta.	3:00 - 3:15
Singleton Grocery	3:30 - 3:45

phone, by card, or by telling us at the circulation desk. Fines are bad habits—we would much rather you renew your books and teach your children to do likewise. Please take a look through your book shelves!

ANOTHER GIFT

A lovely copy of "Ghosts along the Mississippi, the magic of old houses of Louisiana" by Clarence John Laughlin was presented during the summer by Mrs. J. H. Trantha of Chicago. It is a beautiful book and for those who like good photography or old homes it will be a rare treat. Books such as these are doubly appreciated for our budget does not allow the purchase of such expensive books.

Whooping cough is a dangerous childhood disease and immunization for it is advised by many doctors between the second and third months of life.

Pay Of Legislators Scheduled For Vote

Editor's Note: This is the first of a series of articles concerning the four amendments which will be voted upon at the November election. Today's article deals with a proposed salary increase for members of the General Assembly.

On Tuesday, November 2, the people of North Carolina will vote for or against an amendment to the Constitution allowing members of the General Assembly a salary of \$1,200 each for a regular session of sixty days and a salary of \$250 for extra sessions, allowing the Speaker and the Lieutenant Governor—presiding officers of the House and Senate, a salary of \$1,500 each for regular sessions and \$300 for extra sessions.

Reasons cited for pay increase. The present pay scale was voted by the people in 1928, changing the pay scale in force since 1875—\$4 per day for members and \$6 per day for presiding officers for sessions of sixty days, with like pay for as many as twenty days in extra sessions, and ten cents a mile for one round trip between home and capitol. The rise in living costs during the past twenty years has practically doubled, and the proposed increase in pay will leave legislators in 1949 in little if any better situation than legislators in 1929.

Most if not all people will agree that the pay of legislators should not be high enough to induce candidates to run on the profit motive. The pay increase proposed will leave most if not all legislators facing the question their predecessors have faced before them—not how much money they will make, but how much money they will lose in paying for room, board, laundry, tips and other incidental living expenses; in paying for stationery and postage, telephone calls and telegrams in the course of dealings with constituents; for regularly recurring trips home on week-ends to consult with their constituents, keep in touch with their families, and give a lick and promise to the business they left behind them.

Present and proposed pay is based on the theory of regular legislative sessions of sixty days. Since the present pay scale was adopted in 1928 seven sessions have lasted longer than sixty days—ranging from sixty-six to one hundred twenty days. This means that legislators who have barely made both ends meet for a sixty day session have had to dig into their own pockets to finance the added costs of six to sixty added days. With the growing volume and complexity of the business of the State which legislators are called upon to deal with

these added days are likely to increase and pile up further living costs on long-suffering legislators who have increased all state officials' salaries but their own.

The proposed increase in pay cannot be stretched to cover the loss of income suffered by the legislator who lets his business slide while he is away from home—particularly biting on professional men and little business men, the support of the legislator's family and the upkeep of his office while he is undergoing this periodic income loss; the cost of running for the office—varying with the competition and the heat of local contests. In losing these things legislators suffer further loss enough without incurring further loss from lack of living wages while working at their legislative jobs.

A poll of legislators indicates the common feeling that past and present payments of less than living wages to its legislators is costing the State many times its skin-penny savings every year; in losing the services of many good men who cannot afford to take the loss involved—such as men without continuing incomes, little business men with large families, to support, younger veterans of the wars seeking footholds in their professions, and many others with better heads than pocket books.

It may be argued that payment of less than living wages is operating in fact as a property qualification for public office nearly one hundred years after this qualification in theory was swept out of the Constitution. In well nigh every legislative session some men who had not previously counted the costs involved are forced to leave weeks before the session closes on account of sheer financial stringencies, leaving their localities and constituents unrepresented in the all important closing days. One of these legislators writes: "Only the following types of persons can offer their services as law makers: (1) men financially able to sustain a loss in order to render public service; (2) men who may represent special interests who can see to it that the Legislature does not suffer a sacrifice; (3) men of wealth who are interested in the Legislature for the fame (?) or excitement it may offer; (4) or men unable financially, but willing to 'give' as a sacrifice to public service."

The New York Rangers of the National Hockey League suffered only two shutouts last season as compared with five the campaign before.

Susan Hayward Is Best Dressed Actress In Movies

HOLLYWOOD, P.—The standard way to get your name in the paper in movieland is to make a list.

There have been lists of the 10 best-dressed women, and the 10 worst-dressed. Experts list the 10 most beautiful, the 10 with the most beautiful eyes, with the most beautiful legs, with the most beautiful feet, etc. etc.

Now Edith Small, designer, picks the 10 actresses who, she says, are best-dressed in a suit.

Miss Small's list is headed by glamorous Susan Hayward and Lucille Ball.

"They cling to the suits, rather than vice versa," Miss Small explained. "That makes everything clear."

Irene Dunne and Loretta Young wear suits in what Miss Small calls "a contradictory manner."

They Have Appeal

"Miss Dunne and Miss Young never let you forget that they are ladies," she said "but their suits remind you that they have that certain feminine appeal."

Ava Gardner and Betty Grable have Hollywood's most perfect figures. What more can a suit designer ask in a suit.

"Men look twice when Ann Sheridan and Jane Wyman walk by," she said. "That is because they have 'intimate implications' in a suit."

Miss Small's list also includes Dorothy Lamour and, far from least, Jane Russell.

"Miss Lamour wears a suit in much the same manner she wears a sarong," she said. "And Miss Russell does in a tailored suit what she does in a sweater. It's appealing and revealing."

"I always say," she said, "that a suit, perfectly molded to the figure, is more revealing than a bathing suit."

Outpoints Women

FARMER Erwin Prager, 59, of Dorseyville, Pa., gives his granddaughter, Joyce Hougly, a lesson in the art of crocheting. And he makes a good teacher, for his crocheted tablecloth took first prize from 36 women at the county fair needlework contest. (International)

Balancing new corn with other rations will help to keep up the resistance of swine and ward off such diseases as pneumonia, cholera, and enteritis.

PARK THEATRE PROGRAM

SUNDAY NIGHT SHOWS — 12
SATURDAY October 8
— DOUBLE FEATURE —
"Six Gun Law"
Starring CHARLES STARBUETT
— Also —
"Singing Spurs"
Starring HOOPER HOOTSHOTS
LATE SHOW
"The Bride of Frankenstein"
Starring BORIS KARLOFF
SUNDAY, October 10
"Isn't It Romantic?"
Starring VERONICA LAKE, MONA FREEMAN, BILLIE
MONDAY - TUESDAY, October 11
"River Lady"
(In Technicolor)
Starring YVONNE DECARLO and DAN DURY

NEW RELIEF! WHEN COLDS CAUSE **Croupy Coughs**

VAPORUB STEAM
Brings relief with every breath!

Mother, you know what wonderful relief you get when you rub on Vicks VapoRub!

Now, when your child wakes up in the night tormented with a croupy cough of a cold, here's a special way to use Vicks VapoRub. It's VapoRub Steam—and it brings relief almost instantly!

Put a good spoonful of Vicks VapoRub in a bowl of boiling water or vaporizer. Then, let your child breathe in the soothing VapoRub Steam. Medicated vapors penetrate deep into cold-congested upper bronchial tubes and bring relief with every breath!

VICKS VAPORUB

STRAND
WAYNESVILLE, N. C.

CONTINUOUS SHOWS
Monday Thru Friday
3:00 p. m. Cont. Showing
Sat. From 11:00 a. m. til 11:00 p. m.

SUNDAY SHOWS
2:00 - 4:00 - 9:00

BIG DOUBLE FEATURE
FRIDAY - SATURDAY, October 8-9
(Note: This is a First Run Western)

2-Reel Comedy

LAFF-A-DAY

"Let's play post office!"

CENTRAL CLEANERS
We Cleanse And Purify Our Solvents By Distilling

— This Assures You Of The Very Best We

We have been asked this question many times, "What days is your cleaning solvent the cleanest?" The customer goes on to say she has some white or light colored garment that she wants cleaned in clean fluid only. To this question we are proud to announce that we have installed in our plant a still in connection with our solvent filter and can truthfully say that all cleaning fluid is both filtered and distilled AT ALL TIMES. We can assure the most exacting and the most particular customer that our cleaning fluid is CLEAN, WHITE and CHEMICALLY PURE AT ALL TIMES. All garments dry-cleaned are therefore cleaned in PURE AND CLEAN SOLVENT (WE DISTILL).

All of your WHITE garments will come back to you really WHITE and not (GREY) and dingy. All of those pinks and yellows will be bright and clean (WE DISTILL).

All garments cleaned by us are first assorted as to color and material. No light or white garments are cleaned with dark garments WHATSOEVER. The garments are then examined for spots and are prespotted before dry-cleaning so that many of the spots will be removed that would be "SET" permanently if this were not done before cleaning. We do not make any false claims, as to state that we remove all spots, for some spots and stains such as COFFEE, TEA, SOFT DRINKS, BEER, etc., are sometimes "SET" by previous pressing and cleaning, as the garments have "MADE THE ROUND" cleaning plants in an effort to have the removed, but we guarantee that we have all that is "SAFELY" possible to remove spots by prespotting garments before clean them in white distilled solvent (DISTILL).

Almost all modern cleaning plants a "PRESSURE FILTER" that will remove all dirt and soil from the solvent as it enters your garments, but not many plants in the country distill the solvent as well as we. The solvent that has been filtered is clear but has such "ODOR BEARING" substances such as perspiration, cosmetic deodorants, perfumes and organic matters that have been flushed out of the garments and cleaned and remains in the solvent and keep any dry-cleaner from giving you what you are paying for and that is "A CLEANING JOB." Solvent that has been distilled cannot have these impurities (DISTILL). Have all your dry-cleaning done the "MODERN WAY" by sending them to a cleaner that gives you the BEST in dry-cleaning.

We have a display in our window inside our plant—samples of solvent that has been filtered only and solvent that has been distilled. Stop by and see for yourself the difference in real "CLEAN" solvent and solvent that is only filtered. The look will tell you more than words.

TWO NEW SERVICES AT NO EXTRA COST

We also offer to you at no extra cost to you, two new services. First, the "DRAN" resizing process makes your garments water and stain repellent and at the same times resizes and renews and all wear will be treated with the famous Dupont Aridex water repellent. Just ask for your garments to be "DRAXED" or "ARIDRAXED." This service is free upon request. Our price for this QUALITY dry-cleaning service is Suits, Dresses and Topcoats, 75c "across the counter," or 85c "delivered."
