10. Canton kicked short to their own 31 yard line. With less than two minutes remaining, Hipps threw a jump pass over center to Hogan, left end, for 9 yards. On the next play, DeWeese faded back and passed to Hogan, out in the clear, for the only score of the game. The pass play covered 21 yards. Waynesville try for point failed.

Waynesville netted 10 first downs to Canton's 5 during the game. Hawkins, C. Hipps and Carter were standouts for the Cubs. The entire Waynesville team looked good as a unit with Messer and Inman, in the line, and DeWeese and Hipps pacing the backfield.

The junior band of Waynesville High was on hand to furnish music for the game. At half time the band formed a large "C" and "W" for Canton and Waynesville along with the fight songs. The fans were well pleased with the exhibition of the band.

Fishing Prizes Set At Fontana Lake

Eight prizes are being offered in a fishing contest being conducted this month at Fontana Lake. The prizes will be awarded for the eight largest fish taken from the lake. Application forms may be obtained at Fontana Village office.

Many of the local fishermen are expected to participate in the contest and have an excellent chance to cop some of the eight prizes.

Shoe Manufacturer On WHCC Sunday

"With Christ in Business" will be the subject of the Baptist Hour for Sunday, October 17, with W. Maxey Jarman of Nashville, Tenn., as speaker.

Mr. Jarman is one of the South's outstanding laymen, chairman of the deacons of the First Baptist Church, Nashville, a Vice President of the Southern Baptist Convention, and Chairman of the General Shoe Corporation. He speaks with personal experience and conviction as a partner with Christ in his business.

This program is heard over station WHCC every Sunday afternoon at 2:30 by transcription, one of the 71 stations carrying the series on a sustaining basis. The local program is sponsored by the Haywood County Ministerial Association.

When the sum raised by ordinary rate is not enough to pay the current expenses, the only relief is to apply to the Legislature for authority to exceed the limit.

And this has been the course pursued ever since the Constitution of 1868 was adopted whenever the current receipts of a county have not been sufficient to pay its current expenses.

This fading flexibility has left the counties under growing pressures from expanding needs, in a strait jacket between the fifteen cent limitation—fixed and static in the Constitution—and the ever-tightening limitation of the special purpose doctrine crystallizing in the Court's decisions. Local biddies hatched out in first Monday sittings of county commissioners are being driven from the sheltering wing of "special purpose" to seek standing room in the "general county fund" and find no room for sanctuary there. The counties are seeking to raise the general fund property tax limitation in the Constitution from fifteen to twenty-five cents on the hundred dollars value of property as one way out of this dilemma.

In many counties commissioners with heads butting against revenue ceilings are forced to choose between cutting to the quick, and sometimes to the core, of local services they feel are worthwhile and which the people want, and beating the devil around the stump by levying general fund taxes under a special purpose guise, or by transferring funds from the special purpose ledger to the general fund, or by openly dispensing with the special purpose law in the effort to administer justice as they see it in their localities.

Some officials seek to avoid the necessity of this increase, by insisting that "the State assume its full school obligations as it should and that counties be allowed the fines and forfeitures to be added to the general fund . . . by cutting expenses down, and out, if necessary, in view of the fact that the more services rendered by a gov-

State, County Tax Hike Faces Vote In November

Editor's Note: This is the third in a series of articles concerning the four amendments which will be voted upon at the November election. Today's article deals with increasing the amount of total state and county tax which may be levied on property by changing the limitation on said tax from fifteen cents on the one hundred dollar valuation to twenty-five cents on the one hundred dollar valuation.

The proposed amendment would lift this constitutional limitation from fifteen to twenty-five cents on the \$100 value of property. It would not lift the tax; it would simply authorize county authorities to lift it—if, as and when county needs require it for general operating purposes.

The Constitution authorizes the county authorities to exceed the fifteen cent property tax limitation for special purposes. And this explains the difference between the present fifteen cent limitation on taxes levied for general county purposes and present county tax rates ranging from fifty-five cents in one of the richer counties to two dollars and twenty cents in one of the poorer counties, representing general and special purposes combined. This fifteen cent limitation for general purposes appeared to give the counties plenty of operating leeway when it was imposed in 1920, coupled with the special purpose exceptions which had been in force since 1868.

If the fifteen cent limitation on property taxes for general operating purposes was fixed and static, the special purpose loophole with equal constitutional recognition was flexible and dynamic, and could be expanded to cover expanding county needs. "It was inserted in the Constitution of 1868," said the Supreme Court of North Carolina, "for the purpose of providing for an emergency that could not be reasonably anticipated, and as a safeguard against increasing taxation hastily and without due con-
