HOME KNITTING BOOMS

CROCHETED TAILLEUR . . . This hand-crocheted suit with its urban look is made in soft cedar green wool, a perfect foil for fall accessories. Packs like a sweater, total cost to make, about \$28.

TRI-COLOR KNIT . . . High-style hand-knit dress in Placid blue has bodice stripes in white and oak-leaf brown, for a new fall color scheme. Matching blue broadcloth cape coat also made at home.

By DOROTHY ROE, Associated Press Fashion Editor. The steady click of needles is heard through the land as home-knitting hits a new high. Following a survey of yarn sales, the American Wool Council estimates that one out of every six women in the United States will own a hand-knit or crocheted suit or dress this winter—one that she has made herself. Socks, sweaters and berets will

continue to flow from the knitting bag in increased numbers, but the big interest is in hand-knit suits and dresses, say yarn manufacturers. This new and ambitious interest is attributed to the high-price of custom-knit garments and to the improved yarns and patterns now on the market. These make it possible for women to turn out smart, professional-looking garments in a minimum of time. The results are

far different from the shapeless, sagging garments turned out by proud knitters of a decade ago. High-style details, simplified instructions and sag-resistant yarns have made the difference as well as improved methods of string and blocking. Today's hand-knit styles are in step with the '49 silhouette, and smart women all over the country are knitting their own.

The Bookmobile is hitting us hard on books for boys and girls. Even with some books borrowed from the North Carolina Library Commission we can't meet all our needs.

If your club is interested in any one of these ideas as a project, please contact the Library and they will be explained further.

Library Notes

By MARGARET JOHNSTON, County Librarian

LOOKING FOR A CLUB PROJECT?

If your club is looking for a special project this year, we hope you will consider the following items. All of these things are needed to improve our present Library Service.

- 1. A Record Player is needed for our work with children in our own Children's Room, in schools and with our beginning Record Collection, being sponsored by the Waynesville Music Club. Incidentally, we want to install two plugs in earphones, then the records could be heard by two people without disturbing the other activities of the library.
2. New Lights are badly needed in the Adult Room downstairs. If you have ever tried to read there

on a dark winter day, then you would understand that need. New lights have already been installed in the Children's Room and what a difference they have made in the way the boys and girls stay to read.

3. Paint could be used in the Children's Room, Adult Room, or Reference Room. Need any more be said—just take a look!

4. Projected Book Machine could be used with our Hospital Work. This machine throws the book upon the ceiling and would be very useful for those unable to hold up a book.

5. A little sewing would complete our draperies for the Adult Room. They have been finished for the Children's and Reference Rooms. They are cut and ready!

6. More Children's Books are
