Wildlife Area Range Issue Is Terminated By Decision

The controversy between the Nantahala National Forest Service and the stock raisers and farmers of Macon and Clay Counties regarding question of grazing cattle and ranging hogs in the Standing Indian wildlife management area has been settled by the Atlanta regional office of the United States Forest Service. The decision of the forest officials, favored by the North Carolina Wildlife Resources Commission, was that "all grazing of domestic livestock in the Standing Indian area would be prohibited after December 31 of this year." In this area lies approximately 14,000 acres of grazing land which farmers of Macon and Clay Counties have used for years for grazing cattle and hogs and which they claim is of no value as a refuge. Farmers claim that two refuges should be enough for sportsmen, and that farmers depend upon stock raising as their source of income. This area, if open to grazing, is estimated to carry 2,500 mature stock. The refuge was established about 10 years ago following petitions from the two counties and forest officials report area is potentially the finest deer range in this region. During this time a policy was adopted to permit farmers who grazed stock for one year, might graze the same number of stock (up to 10) the next year, but in case a farmer missed a year, his grazing rights were lost. E. W. Henshaw, supervisor of the Nantahala National Forest Service here, said it had been decided to continue this area as a management area and to prohibit further grazing, this being in conflict with the use as a game and fish refuge. Henshaw further stated that while area was publicly owned to permit grazing to a few would be unfair to others who have an interest in the forest. EASY MOVE FORT WORTH, Tex. (U.P.)—Four Fort Worth families in the same block changed their addresses without moving. The big house in which the four families live was moved from a corner address to a next-door vacant lot, in order that a street may be widened.

"Every farmer who is eligible to vote has a responsibility to cast his or her ballot," the chairman states. He emphasizes that these annual elections give the farmer a chance to make his voice heard. "If you are pleased or dissatisfied with the present administration you should show it by voting," he stresses. "Every farmer should show interest in his local farm program and elect those men whom he feels will most efficiently carry out their responsibilities."

Second high buyer was White Provision company of Atlanta, who bought 11 head for \$4,242.15, and Ted A. and P. Food Stores of Asheville were third, buying eight calves for \$2,751.40. Officials said the show probably will be held at an earlier date next year in order to avoid conflict with the opening of the tobacco market. Wayne Corpening, county agent, stated that it was the best group of animals to appear in a baby beef show in Asheville. Officials in Raleigh said the animals were best on show in the state this year. In spite of recent scientific advances, one baby in fourteen in the United States is lost at or soon after birth.
