

At Strand

Dorothy Lamour is starred as "Lulu Belle" in the film, "Lulu Belle", which opens at the Strand Sunday for a three-day run.

Stack Offers List Of Ten Best Dates In Hollywood

By PATRICIA CLARY United Press Staff Correspondent

HOLLYWOOD (U.P.)—A playboy who has dated nearly every glamorous girl in town has stuck his handsome neck out. Robert Stack offers a list of the 10 best dates.

This blunder probably will make the dance floor at Ciro's frostier than an ice rink next time Stack ventures in. He said his publicity man talked him into it because he was making a picture, Warner's "Fighting Squadron."

Number one on Stack's list, as on many a man's, is Lana Turner.

"There is a girl who is made to melt in your arms," he said. "She has every thing."

Evelyn Keyes, now married to director John Huston, is the girl Stack picks for a rainy night in front of a fire.

Girl With Laughs

"There is a girl with laughs, a great conversationist," he said. "We need to sit in front of the fire with her."

Jane Powell is the girl to take before bedtime when you can't afford anything else.

"She understands those things," he says. "And she has more fun doing them anyway."

Betty Grable, now Mrs. Harry James, is, believe it or not, a good date when you want to play golf.

"She also can be roared on the front court and beat me at badminton," Stack said.

Deanna Durbin was Stack's idea of a perfect date for a premiere.

"She has poise, beauty and class," he said. "I always was proud to have her on my arm where people could see."

Yvonne Likes Breeze

When he felt like taking down the top of his convertible, Stack dated Yvonne de Carlo.

"She doesn't mind having her hair blow," he said.

Wanda Hendrix is the right date for an evening at the Hollywood club.

"She doesn't care if you don't buy a box seat," he said. "She just likes to listen to the music."

Judy Garland is the girl to take to the Palladium, Hollywood's dance palace.

"She's right at home with musicians and hip to a fast tempo," he said.

Elizabeth Taylor is the girl to

summer the finest dairy products which can be produced," Rackley said.

Cantonian Named Distributor For Sealtest Products

Clarence Medford, well known businessman of Canton, has been named distributor for Sealtest Dairy Products and Birdseye Foods in this area, beginning December 1, according to an announcement by Charles I. Rackley, manager of Southern Dairies, Inc., in Asheville.

Rackley, in making the announcement, emphasized that Southern Dairies' policy is to foster the growth of local enterprise in the belief that cooperation between large and small business is the foundation for future progress in the dairy industry.

The introduction of the complete line of Sealtest Dairy products in Haywood county marks another step in the company's plan to encourage the establishment of locally operated sales outlets for its nationally known brands of ice cream, milk and frosted foods.

"Sealtest dairy products enjoy wide acceptance throughout the country because of rigid standards of quality and sanitation under which they are manufactured. The Sealtest symbol assures the con-

Coming Here

Jack Sparks, a Hollywood cowboy star, will appear in person, along with his Hollywood Hot Shots at the Strand Theatre on Saturday, Dec. 11 for five shows.

Postmaster Urges Early Card Mailing

Postmaster J. H. Howell warned today that "a serious last-minute jam in holiday mail deliveries" is possible here if too many persons continue to delay mailing their Christmas cards and packages. "When the dam does break, we'll be really flooded," he observed apprehensively.

All Christmas cards for out-of-State delivery, and all parcel post packages, should be in the mail today (Friday, December 10) to assure their arrival before Christmas, he said. If cards or packages are not ready until after this date, he advised using airmail. Otherwise some of them may possibly not be delivered until after Christmas.

Christmas cards for local delivery should be mailed at least a week before Christmas.

"Envelopes and packages may be marked 'Do Not Open Until Christmas' if desired," Mr. Howell advised. "Such notices are permitted both on parcel post and on regular mail, including Christmas cards sent third-class with a 12-cent stamp."

The postmaster warned that envelopes of third-class mail may not be sealed, either by moistening the flap or by closing with Christmas seals.

Christmas seals may be affixed to the back of the envelope, however.

Musical Term

"Glee" is a musical term, signifying a piece of concerted vocal music, generally unaccompanied, and for male voices chiefly.

take to the beach. She not only looks good in a bathing suit, she also goes swimming.

June Haver was Stack's date for ballet and opera, the "high class stuff."

"She elevated me," he said.

First Artificially Bred Calf

John Carver, employed as technician for the Haywood Cooperative Breeding Association, is pictured above with a heifer calf that was born on November 3 by a grade Guernsey cow belonging to R. M. Wadell of Hazelwood. It was sired by Tarbell Farms' Peerless Caesar, which has an index of 10,591 milk with 4.68% butterfat.

New Calf Breeding Program Meeting With Success Here

This heifer calf was born on November 3rd by a grade Guernsey cow belonging to R. M. Wadell of Hazelwood. It was sired by Tarbell Farms' Peerless Caesar, 240902. This bull has an index of 10,591 milk with 4.68% butterfat. That means that "Peerless" has a tendency to sire calves that will increase in milk production up to 10,591 lbs., testing 4.68% butterfat.

The average milk production for cows in Haywood County is 4,000 lbs. So it can readily be seen that by using proved sires like "Peerless", the production can be increased.

We are sure you are wondering now just how you can obtain the services of proved bulls like "Peerless". The Haywood Cooperative Breeding Association, a non-profit organization, has made arrangements with the Southeastern Artificial Breeding Association of near Asheville to get semen daily from their stud—20 Guernsey, Jersey, and Holstein bulls there, and also their stud in Indiana.

This semen is shipped to the Haywood Cooperative Breeding Association daily, of which Joe Palmer is president, T. C. Davis is vice-president, and Jack McCracken is secretary-treasurer. These men have a trained technician who has been taught how to breed cows artificially at N. C. State College. This technician is John Carver.

Persons wishing to get their cows bred should contact the county agent's office by 11:00 o'clock a. m. of the day they wish their cow to be bred. Either call the office No. 167, send word by a milk hauler, or come to the office in person, and your cow will be bred that afternoon.

The conception rate by artificial breeding is as high as by natural breeding.

The cost of getting a cow bred is \$5.50 (up to 3 times for one conception). There is also a \$2.00 membership fee, which goes to the upkeep of the equipment. This fee is paid only once.

By using these proved bulls here in Haywood County, the production of dairy cows should be doubled in the next few years.

For further information on getting your cows bred artificially or information on artificial insemination, contact the county agent's office.

Although meats contain all necessary minerals, they are low in calcium.

Family Golf Foursome Has Its Advantages

MEMPHIS, Tenn. (U.P.)—Bruce M. James reported seeing a strange golf foursome consisting of a man, his wife, their baby and a dog.

James said he followed them around a nine-hole course. The man carried the clubs and the wife pushed the baby in a wheeled stroller.

At each hole, the man would swing and then hand the clubs to his wife for her turn. The baby gurgled delightedly and the dog played caddy. He ran off and guarded the ball on each stroke.

Lean meat is more than 73 per cent water.
