1949 Resolutions

Tensorrow many people will make a series letter during 1949

Many of the resolutions will be personal matters, and of course all designed for make my each better.

has annual torrest, points out times thinks which we feel not let be well for every citizen to include in their list of resolutions for the new year.

Mr. Babson suggests that everyone get out of debt; put a substantial sum into savings, and for farmers to have a diversified crop. program. The latter is saready in practice on most Haywood county Lurys, as farmers in this county are not too dependent upon any

The suggestions of Mr. Babson sound practical, and have a "down-to-earth" meaning. Just how many people will put these into practice will never be known, but then there are still many practical people left. even if they are rather hard to find at times.

Haywood Came Through

The true Christmas spirit really prevailed in Haywood during the current holiday season. From our observation, more needy famihes were taken care of than at any other time

The general response was noteworthy, as all agencies reported that the public "due deep in their peckets for contributions.

The sixteen cases which The Mountaineer reported from the Welfare Office were well provided for, as were the hundred or more children cluthed by the Lons Club, and the several hundred remembered by the Salvation Army, and the many children at the Woman's Club Christman tree on the 24th. Similar charitable programs were carried out in Canton and Clyde.

All in all, Haywood responded, and responded well to the call, which is typical of the manner in which this county goes about calls which are worthwhile.

Could Have Heard Them Cheer

We are sorry that Governor Cherry was not on top of Mt. Guyot last week when he announced the \$450,000 allotment for the Pigeon River road to Tennessee. We are sure that he could have heard the cheer that went up from Haywood county on this side of the state line, and from Cocke county from the

The Mountaineer does not remember a single piece of news in recent years, except the "cease firing order" of the war, that has brought as much tavorable comment in this area. Men and women in all walks of life have termed the action of Governor Cherry as "The greatest thing to happen to our section in a long, long time."

Duncan McDougald, of Brevard, wired this newspaper: ""This is the greatest piece of news that could happen to North Carolina, Tennessee, South Carolina and Georgia, as it connects from Canada to Key West overseas highway through beautiful Haywood county and Waynesville. Thank Governor Cherry; and Commissioner Noland for this wonder

That is indicative of the enthusiasm with which the news has been received.

Western North Carolina and Eastern Tennessee will be linked together by this impartant highway and commerce of both areas, and all the peoples in between, will Lenefit in many ways when the highway is

Farmers can get into Tennessee with produce and sell on markets there when their hosts of delightful Christmas par- has good chance to win from Calicrops are over. The canneries in that area will afford another outlet for a greater produce and fruit crop on this side of the mountain. Today, Tennessee markets are almost out of the question because of the hard climb over New Found Gap, or the long out-of-theway route via Asheville to get to the markets in the Volunteer state.

This newspaper wants to go on record right now as favoring a suitable marker be placed Year's Resolutions? on this highway to Governor Cherry, and also Governor Kerr Scott, as we trust the are starting a New Year and it's go to school like his playmates. But division of special education, the latter will see to it that this all-important a good idea to make resolutions if the chances are that in many places home teacher is usually attached to farm-to-market road is completed during his we try to abide by them."

And repeating the sentiments of the peo- try to make them 1 try to do the tors and supervisors of education them feel that they are a part of ple of both Carolina and Tennessee, we say, "it is truly great news, and Governor Cherry shall always be remembered for his forethought of allocating this fund for such an important highway, which will mean the fuller development of this entire area."

The Solemnity Of Christmas

The Christmas of 1948 carried with it more the real meaning of Christmas than any of recent years. There seemed to be a dignity. a solemnity, about the season that reached break them so I won't make any into the hearts of all.

No one seemed to be able to explain why so very seldom kept. I don't see this was the case, nor did they try. The over- any point in making them hanging clouds of war discord may have had its effect; or the realization of how blessed we were in this world's riches may have penetrated our consciousness.

In no way was the happiness and pleasures of the holiday season lessened but always underneath was the current of reverence and impressiveness. Perhaps that was the reason it was one of the very best we have ever al Editor, has referred to me what sters who are unable to go to tions change his way of living.

Will frustration end

Answer: No. If it did, there would probably be no divorces. Marriage does not even mean the end of sexual frustration except for mature and well-adjusted people. For the mating impulse is as much a matter of emotion as of "physical desire" and if your emotions are disturbed by inner conflicts, physical release alone won't satisfy them. To escape frustration, you not only must find he right wife or husband; you yourself have outgrown childish fears and inhibienough to be able to enjoy our marriage.

Is admitting ignorance a sign

Answer: Quite the contrary, says William M. Cruikshank in the Journal of Clinical Psychology. In a test of normal and "retarded" children, the former were willing to admit they did not know the answers to test ques-

By LAWRENCE GOULD Consulting Psychologist ...

tions, while the latter group were afraid to confess their ignorance and gave answers that were superficial when they were not nonsense. For the dull child is both less self-critical and more eager to keen his self-esteem. The man on the street is right—if you claim to know all the answers, you are probably a "phoney".

or physically ill? Asswer: A physical illness may

be due to an unconscious effort to get out of having to work, and a person who is not ill physically may pretend to be for the same reason. But a person whose normal desire to get more and more out of life is not strong enough to drive him to work for it probably has some sort of emotional disturbance. He may have a morbid, and perhaps unconscious fear of being cheated out of what he works for, or he may be childishly unwilling to give up the thrill of feeling that someone

Letters To The Editor

MORE ABOUT YAMS

Editor The Mountaineer:

Mr. Frank Jeter, our Agricultur-When the "Yam" Festival held

at Tabor City was announced in the press. I received a call from the Associated Press asking me whether or not there was a difference between the "yam" and the sweet potato. I explained to the A.P. representative that there was a difference and gave him the information he requested. So far as I am concerned, the question I answered was purely academic. There is quite a difference between the yam and the sweet potato as you outlined in your editorial However, the sweet potato has long been called the yam and can continue to be so far as I am concerned. This is also a common term used in connection with the sweet potato in Louisiana and other sections of the South. The fact remains, however, that they are in no way related

While your people do not grow the Muscadine grape in western Carolina you may be interested in another common error. Most people in eastern North Carolina refer to all Muscadine grapes as "Scuppernongs". The Scuppernong is the most popular variety of the Muscadine family and for this reason. all grapes of this type have been called Scuppernong. The fact that James, Thomas, Mish, Flowers, Burgaw, Wallace, and others are all varieties of the Muscadine family just as the Scuppernong is a variety of this large family is fre-(Continued on Page 5)
