shallow well pump. Easy terms. CAGLE FURNITURE CO. Clyde, N. C. if For Cars In 1949 Slated

The Motor Vehicle Department today announced inspection periods for various model vehicles for the first half of 1949.

The Mechanical Inspection Law passed by the 1947 Legislature provided that all vehicles regis tered in North Carolina be inspected once during 1948 and twice a year thereafter.

According to a new Inspection Manual, released today by the Mechanical Inspection Division of the Department of Motor Vehicles the first semi-annual inspection period for each year will begin on January 1 and end on June 30. The second semi-annual inspection pe riod will begin on July 1 and end on December 31.

The Manual sets forth the inspection deadlines for all vehicles for the first inspection period as follows:

All vehicles of the year model up o and including the year 1936 must be inspected by January 31.

All vehicles of 1937 and 1938 nodels must be inspected by Febпагу 28. Models 1939 and 1940 must be

nspected by March 31.

All vehicles of the year models there will be no congestion, and 1941 and 1942 must be inspected by April 30. Models 1943 through 1947 must

e inspected by May 31. All year models 1948 and 1949 nust be inspected by June 30. The Manual further states that the operation of any vehicle after

he time limit set for inspection, without displaying the official seal of approval, will be a violation of the Motor Vehicle Laws of 1947." A provision is made that beginning January 1, 1949, the owner of a vehicle will have 30 days from the date of acquisition of a vehicle to have it inspected, provided that

shall have with him at all times a bill of sale or other sufficient evidence to show the date and place of acquisition of that vehicle
