Good Points And Bad Points To Inspection Law

We are disapported that the H most misnutice of the General Assertion is a rice filty reverably on the off to cost and internal inspectral of motor vehicles

We reality reality 71 at 9 6 by the 1947 General Asset torce January 1, 1946, and a start for the We realize, too, that to have the first that the is perfect the first wear it is it is not tion. Regardless is the lack in the second reel that the dispection, and a second tieral.

The recards of successful to the last total unsafe vehicles of the interface of the second ppd ranning a ing the month of Juryhicles were checked and the set that had something with a start 1.60 had faulty brakes 14 in a new debut at steering and wheel a com-23 out of every lot the

Another interesting provides a concern is that the matter of the local sector of the were fewer than "a province the fact that they want vehicle registrations and the state

After one year of open" now-it seems that there is a ground detects shown up in the law are government good derived trains the law to what a host sides to get together out a naverable fail tout will be beneficial, and terminant entering and those using the hi

We Favor Passage Of The Bill

Rep. Grover C. Davis has introduced a bill in the House of the General Assembly which would prohibit carnivals, gambling, immoral shows and fortune telling within Haywood. The bill not only would place the guilt on the parties owning the shows, but also on the sponsor," and the person owning the land a building where the shows or carnivals set no for business.

The stand of this newspaper on carnivals s well known. We have always been against mem. We have seen large ones here, and we have seen small ones here, and to this late have not seen where they were worthwhile In every case, they have proven to be - reat liability.

We have always felt that the county will In the better off not to have such places of impresement, if they can be termed that, to operate in our county.

This newspaper hopes that Mr. Davis' bill . see both the House and Senate and becomes a law.

Haywood An Average County

Haywood county has often been referred to us the "average North Carolina county." This is more fact than fiction, according to the recent reports coming from Raleigh. In numerous instances, state appropriations have been broken down to county levels. and in almost every instance. Haywood's held in March share is one-hundredth of the total.

That makes the figuring easy for Haywood tesidents in trying to study pending legis- mascase. Out of every \$100 spent for state-wide projects. Haywood on the average gets \$1. From the proposed \$200 million road prothan Haywood would get about \$200,000. Figure the \$102 million education program, on errors on page of advertising. Hayword would get about \$100,000.

Miss Betsy Lane Quinlan directs Being on average county, it is easy to tell inusual concedy. at a plance just what the share will be in some in Marion eillars and cents. Miss Bessie Suyder weds Richs

Drunken Drivers

We heartily agree with Judge Dan K Moore in his charge to the grand jury, when he pointed out the necessity of upholding our highway patrolmen in enforcing the laws. We also like the manner in which Judge Moore rapped drivers who take the wheel while drunk, or drive recklessly,

We further agree that we have five good satisfimen in Haywood, and records show that drunken drivers are being reduced to a minimum, but then even a minimum is too ZHEET. 12 I.S.

Those who travel Haywood highways while under influence of liquor might as well enlize now that if one of the five patrolmen such them, and they go before Judge Moore. they will get to pay the penalty of the law. We have often said that the maximum pen-

ity of any law yet written is not too severe

Letters To Editor

PROGRESS IN HAYWOOD

Editor The Mountaincor The last issue of the Mountaineer

has inclusioned i see that you have been presented with a plaque for your work in forwarding all good causes in the county. It is an honor well bestowed. I have never seen anything like the splendid reports given in the paper of the work of our county agents. Such recognition and such backing is most valuable to the counts.

Our record for lack of accidents on the highways for 1949 is a splendid one. I suggest the value of putting a 1948 box for the same date alongside your 1949 box of that date. This will drive home to everyone just what we are doing in 1949 in reducing accidents on the highways.

I see that in nearly every issue you publish an honor roll for one or another of the various high (Continued on page three)

Is the happy girl the type men like best?

Answer: A girl who is reasonably popular with men generally is a happy person-indeed, it's herhappy, cheerful disposition that makes people like her. But the type of girl whom men "go mad about" and who is swamped with dates and invitations may be thoroughly unhappy, even though she is too smart to show it. She knows all the tricks of "glamour," but has no real interest in men except to use their admiration to quiet her secret self-doubt, which in turn won't let her feel or enjoy real love if she gets it.

Does dreaming of drowning mean fear of water?

Answer: In itself, No. Few dreams can be taken quite so literally. Dreams of drowning are mostly "anxiety dreams" in which water is a symbol of the world in which the dreamer feels he has astrous fits of jealous fury. (Copyright, 1949, King Features Syndiente, Inc.)
