DON'T LET RUPTURE Spoil Another Day
 If you've found ordinary trusses a make-shift, don't be discouraged. Science and experience have worked together to end rupture handicaps—to give you complete physical and mental ease. Let us fit you with the amazing, NEW **NON-SKID SPOT-PAD TRUSS**. You'll see at a glance how the new "Non-Skid Spot-Pad" feature holds the rupture securely with only one-half the pressure of ordinary trusses. Light and comfortable, you can wear it without being conscious of it. The "Spot" holds the hernia securely, as with your fingers, while the non-skid surface keeps the pad from slipping. **Scientific Fitting By Experts** Come in and consult us without cost or obligation. There is a "Spot-Pad" Truss to fit your exact requirements.
