nesville Donor Recruitment Committee, headed by Chairman Wayne Corpening, were contacting residents of this area in an effort to register at least 75 volunteers for the first donations.

To prevent any loss of the donors' time, the volunteers are given a specific time when to appear at the donor room.

The details will be so arranged that the doctors will be able to take care of six donors every 20 minutes.

As far as after-effects are concerned, 98 per cent of vounteers have reported feeling none at all, while only a few have said they felt slight fatigue at the most.

After the first visit, the Bloodmobile will return every other month.

Diphtheria Takes Life Of Child

A two-year-old boy died of laryngeal diphtheria at 10:30 a. m. today at the Haywood County Hospital.

He was James David Forga, son of Mr. and Mrs. James Thomas Forga of Route 1, Waynesville.

The child was stricken Sunday.

Dr. Mary Michal, district health officer, said a diagnosis showed that he was a victim of the disease.

She said the tragedy was the first caused by the disease in Haywood county in several years.

Graveside rites will be held at 2 p. m. Friday at the Crawford Memorial Park. The Rev. Kay Allen will officiate.

The health officer said this was the third diphtheria case in the county. A five-year-old child is reported recovering under treatment at home, and the other case, that of a 13-year-old girl, ended with complete recovery.

Dr. Michal, meanwhile, warned parents to have their children immunized completely by the time they are one year old.

She pointed out that this is required by state law as well as for the protection of the child.

Surviving the young victim, in addition to his parents, are four sisters, Myrtle, Geraldine, Hilda, Ruth and Joyce Ann; and his paternal grandmother, Mrs. Eleanora Forga West, Rt. 1, Waynesville and his maternal grandparents, Mr. and Mrs. G. P. Morgan, Rt. 1, Waynesville.

Funeral arrangements are under the direction of Garrett Funeral Home.

Thief's Conscience Hurts But Not Hard Enough

CHARLESTON, W. Va. (UP)—A Red Cross representative, George F. Whitmore, missed his watch while working in the post office here in 1943.

He has just received a $10 bill and a note advising him the money was "trade-in value on a watch you once lost."

Whitmore believes the 21-jewel watch was taken by a person whose conscience is hurting him. Adding that his watch was worth far more than the money sent, he observed it should start "hurting a little harder."

S. documents for transmission to Moscow. The Barnard College graduate insists she was gathering material for a romantic novel. *(International)*

don't DO that!

JUST LOOKING? It's thoughtless to take up the time of a travel agent discussing trips and collecting folders unless you're going someplace.

Sentinels of Health

Don't Neglect Them!

Nature designed the kidneys to do a marvelous job. Their task is to keep the flowing blood stream free of an excess of toxic impurities. The act of living—*life itself*—is constantly producing waste matter the kidneys must remove from the blood if good health is to endure.

When the kidneys fail to function as Nature intended, there is retention of waste that may cause body-wide distress. One may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel tired, nervous, all worn out.

Frequent, scanty or burning passages are sometimes further evidence of kidney or bladder disturbance.

The recognized and proper treatment is a diuretic medicine to help the kidneys get rid of excess poisonous body waste. Use *Doan's Pills*. They have had more than forty years of public approval. Are endorsed the country over. Insist on *Doan's*. Sold at all drug stores.
