

Interior Of One Of Haywood's New Dairies

The new dairy has been completed by Robert Underwood, in East Waynesville, N.C. The building has three departments, a milk room, milking room with automatic pipelining which is made especially for interior of dairy barns, and a cheese room. The color scheme of painting was used, white and buff-tinted. Bill Ingram outlines the barn. (Photograph by Ingram's Studio.)

How Parity System Works

WASHINGTON (UP)—The "modernized" parity system scheduled to go into effect on 1950 crops would boost the parity price for some commodities and lower it for others.

Here is a comparison of the actual prices farmers got in mid-January, compared with the mid-January "parity" price, computed under both the present system and the new system:

	Present parity	"Modern" parity	Actual price
Wheat (bu.)	\$ 2.19	\$ 1.53	\$ 2.02
Corn (bu.)	1.59	1.43	1.25
Cotton (lb.)	30.75c	27.3c	29.27c
Cottonseed (ton)	\$53.90	\$67.70	\$55.70
Peanuts (lb.)	11.9c	9c	10.5c
Potatoes (lb.)	\$ 1.51	\$ 1.33	\$ 1.35
Hogs (100 lbs.)	13.00	13.70	20.10
Beef cattle (100 lbs.)	13.40	16.70	20.00
Veal calves (100 lbs.)	16.70	18.70	25.10
Lambs (100 lbs.)	14.60	17.90	21.90
Milk wholesale (100 lbs.)	4.30	4.42	4.61
Chickens	28.3c	20c	30.7c
Turkeys	25.7c	35.9c	49.3c
Eggs	45.4c	45.5c	43.3c
Wool (lb.)	45.4c	50.3c	48.3c
Rice, rough	\$ 2.02	\$ 2.21	\$ 2.47
Rye	1.78	1.47	1.44
Oats	0.99	0.83	0.76

The All-America Conference posted a mark of 93.8 percent on 330 conversions out of 352 points after touchdown attempts in 1949.

Lake Appling of Chicago White Sox did not hit a single homer in 1948. He had a three-year stretch, 1938-1940, in which he also failed to clear the wall.

Buddy Lewis of Washington goes into the 1949 season with an even 1,500 hits and exactly 300 for a lifetime batting mark over ten seasons.

Jim Leonard, Villanova's new head football coach, also is an asparagus farmer. Leonard has a large farm in New Jersey.

Good Cows Turning Good Grass Into Good Milk at a Good Profit On a Good Haywood Farm

This herd of cows are making money for their owners. The pasture has had good care, and reflects the attention given in the profit from milk.

People Always Curious About The Weather

NEW YORK (UP)—An average of 46,500 persons call the New

York Telephone Company's weather service each day to hear the recorded forecast. The calls reached their peak on last Aug. 26, when 179,530 calls were received about the 101-degree heat.

An analysis of the calls shows that there are more calls in summer than winter, more on Friday than any other day and more between 4 and 5 p.m. than any other hour.

Waynesville FFA Projects Good Profits

The chapter added \$561.95 to the chapter's income, while the 261 apple trees yielded a net \$887.95 profit from this fruit.

The boys sold 22 hogs for meat. Their net profit from this project was \$738.25. And 450 chickens amount \$324.27 after expenses were deducted.

Three horses earned \$120, and 14 stands of beans added \$92.35.

The Irish potato project of six and three tenths acres realized a profit of \$690.40.

Two of the busiest members of the chapter were Jerome Boyd and Mack Hall.

Jerome's projects included: six head of beef cattle, 17 apple trees, an acre of corn, two acres of hay, and nine acres of pasture.

Mack took care of four acres of pasture, an acre of vegetables, two dairy cows, a half acre of hay, a hog, six acres of corn, and a poultry flock of 40 birds.

During the year, the chapter sponsored a two-day live-stock and crops fair last October, showed and sold six baby heifer animals, and prepared about two acres of lawn on the school grounds.

They started a chapter orchard of 61 apple trees, and set out 15,000 seedling trees for this spring.

In addition to this, they took part in public speaking contests, held judging events, a father and son banquet, and took part in two radio broadcasts.

And with the help of FHA girls, they remodeled the chapter house.

Looking ahead toward the summer, 12 members plan to attend the FFA camp at White Lake in June.

There are only seven players in the National League who have lifetime batting averages of more than .300.

Stan Musial's .348 lifetime batting average is the highest mark among active National League players.

Out-Of-State Farm Tour Scheduled For August

County Agent Wayne Corpening announced this week the annual six-day out-of-state farm tour has been scheduled tentatively to start August 1.

Haywood county farmers and their families this year will inspect farms in Kentucky, Indiana, and Ohio before returning home.

Mr. Corpening and most of the time would be spent in Indiana, and that instead of that state are working now on arrangements to receive their Haywood guests.

One of the stops he added would be at the "Sun Belt" where the Haywood people would see the famed cattle and horse farms there.

The application blanks sent to the county's farmers for the tour instruct the applicant to note whether they want to travel by bus or by car.

Mr. Corpening said that if the applicant has a car, the county will take their car. If they do not, the county will provide a car. Conditioned buses will be used to insure comfort for the guests.

The Eastern Intercollegiate League Golf championship will be held at Annapolis, Md. on May 14.

McLott led the National League four times in home runs.

Modern Dairy In Haywood
