# **Buying Power Of Farmers** Reflected In National Trends Of All Business

Editor-in-Chief, Farm Journal.

Farmers buy roughly one-fourth of the nation's steel and petroleum. In some proportion their purchases affect directly or indirectly the curves of every business chart. The agricultural outlook has to be acre have not risen notably. The taken into account in any estimate of the months ahead.

Despite high costs for many of the products farmers must buy, agricultural purchasing power during 1949 may be expected to continue at high levels. Sagging prices for corn, wheat and soybeans may and poultry sectors of agriculture

Those who watch for signs of agricultural recession will need to sound policy. They point out that take into account that the pattern which followed the first World war relationship of farmers and land of acres presents a very different economy.

farm plant has been dramatically some favorable effects are naturally improved. Nearly all of World War expected to be left by the product Farming I food was produced with horse, ers most concerned. The high power. #### Why Not Listen To The Ladies?

By CYNTHIA LOWRY AP Newsfeatures Writer

The editor of a Chinese daily paper, one Kung Tehpo, recently

Editor Kung went on to say that Generalissimo Chiang Kai-shek and the late Sun Yat-sen, first prestthey had fatten into the pitfall of heeding distaff advice. When a fren crows to ans

nonnce the dawn it signifies misfortune for the family." Kung editorialized solemnly. "Similarly, when a woman interferes in the government it presages dicaster for the nation." It might be a little presump

tunus to suggest that maybe many of China's troubles stem from attitudes like that taken by Editor Kung. In a republic called the United States, it is deemed a sign of virtue for a man to pay attention to the advice of his partner, In fact, he boasts about it openly During a recent presidential campaign, a man named Harry Truman appeared on the rear plat form of a train many times, and

almost invariably brought his wife forward with words like "And now I want you to meet the grass is just like sending money up | boss." Then his daughter came forward to his introduction-"Meet mont of the Massachusetts soil the boss boss." The people loved conservation service. He estimates it, because it was home-spun that \$4 worth of valuable nitrogen humor that had more than a grain At about the same time, Editor

Kung, another fellow was barnstorming the country with the idea of becoming president In press conferences, over the air and on Ayenue bridge here, they stop and other occasions this man, named the passengers get out and walk Thomas E, Dewey, explained that Mrs. Dewey was his toughest cross the bridge and pick up the critic and most severe editor. Sne went over every speech before he Monuments Commission a vital arttery, but its weight limits gave it, and blue-pencified things she didn't like. He talked over all his problems with her, he said.

Messrs, Truman and Dewey are The ancient Romans often built merely rather flashy examples of a common practice in this country, Editor Kung, and it seems to have worked out rather well. Somemade some sense.
