

### Saunook People To Be Guests Of Francis Cove

By Mrs. Bill Hollingsworth  
Mountaineer Correspondent

The members of the Francis Cove Recreation Committee are working on the plans for the coming Field Day July 23.

On that day, the people at Francis Cove will entertain 1939 Saunook neighbors and try to lead them in the Field Day Contests.

Under the general plan, the Francis Cove people will take their guests from Saunook on a tour of the Francis during the morning.

After dinner, which will be served at 1 P. M., the young folks and their elders will compete in a wide variety of games.

Recreation Committee Chairman William Hollingsworth and Mrs. Hollingsworth returned from last Friday night's Recreation Committee meeting at Cannon High School with fresh ideas for planning the event.

The next regular Community Development meet will be held at 8 P. M. July 29 at the Francis Cove church.

### Smokey Says:

### Beer Taxes Hit \$320,635 In June

State Department of Revenue has reported.

Total collections for the first six months of 1949 total \$2,140,106.00.

Half of the excise tax is distributed

annually to counties and municipalities which license beer sales.

The tax totals do not include the State sales tax on beer or license taxes levied by the Federal and local governments.

When lambasting rayon shark-skin it is not necessary to use starch.

### Organ Recital To Be Held At Lake Junaluska

Mounting interest is displayed here and in nearby cities in the forthcoming attraction for Saturday night at 8 o'clock in the Assembly Auditorium. This will be an organ recital by Cyrus Daniel, of Nashville, Tenn., a fellow in the American Guild of Organists who holds degree of Mus. M. from Yale University.

The Saturday night program will feature the Bach D-Minor Toccata and Fugue—its first rendition on a Hammond organ in this vicinity. For its performance the total resources of the Assembly's Hammond organ have been enlarged, insuring ample variety for a full evening's entertainment from the instrument.

Other numbers include an arrangement of "Sheep May Safely Graze" from the Birthday Cantata by the same composer; a Suite in F by Corelli, a transcription of the Nocturne from Mendelssohn's Midsummer Night's Dream music and several short characteristic pieces.

Daniel will be assisted by two members of the Lake Junaluska quartet, Katherine Fryer, soprano, of Nashville, and Frank Love, baritone, of Atlanta. They will be heard in separate solos, as well as in a duet.

Daniel is Director of Music at Vanderbilt University and choir-master of First Presbyterian Church, Nashville. During the Assembly season he is organist and Director of Music at the Lake Junaluska Assembly.

A graduate of Shurtleiff College, Alton, Illinois, he holds advanced degrees from Northwestern and Yale Universities. He studied abroad with York Bowen, Royal Academy of Music, London, and Joseph Bonnet, late organist at Saint Eustache, Paris.

For a number of years he was head of the department of Theory and Composition at Lawrence Conservatory, Appleton, Wisconsin. He plays the violin and viola, and was formerly a member of the Nashville Symphony Orchestra. An experienced director and composer, Mr. Daniel has written in the larger forms for orchestra, string quartet, piano, organ and voice. His hobbies are photography, wood-working and gardening.

Mrs. Daniel shares his musical interests, singing in his choirs as well as being active in civic and social circles in Nashville.

### NO FLOWER LOVER

QUINCY, Mass. (U. P.)—A reported tulip thief in Merrymount park brought police racing to the scene. They seized a man on his hands and knees in the tulips. He wasn't stealing flowers, he insisted. He was just a fisherman out looking for night crawlers.

### An Ideal Summer Decoration

The table setting shown above is ideal for a party luncheon being given for the new bride or a bride-to-be. It gives suggestions for center decorations that are most unusual.

### Animal At Test Here Given National Recognition By

National honors have been awarded the North Carolina Department of Agriculture Mountain Experiment Station at Waynesville for an outstanding Jersey bull that they own. The bull, Biltmore Standard Defender, has been named a Superior Sire by the American Jersey Cattle Club, which has its national headquarters in Columbus, Ohio.

The Superior Sire rating indicates that a bull has the ability to pass on both high production and good bred type to its offspring. Biltmore Standard Defender has twelve daughters. To date his production they have averaged 17,963 pounds of milk and 599 pounds of butterfat in ten months on a standard daily milking routine equivalent basis. The bull at a far from his daughters also had no heifer calf with an average value of 235 points. The latest calf born and gives 100 points for a perfect animal.

This superior breed of bull has been officially classified by the U. S. He has achieved the high rating of Very Good, which equals a score of 85 to 90 points. Biltmore Standard Defender was bred by Biltmore Farm, purchased by G. A. Wilson of Raleigh, N. C. in 1944 and sold to North Carolina in 1945.

### Homecoming Day Set For Aug. 7 In Iron Duff

By MRS. ROY MEDFORD  
Mountaineer Correspondent

August 7 will be Homecoming Day for the folks who used to live in Iron Duff.

They'll get together with their former neighbors for a day of fellowship at the Antioch Baptist Church.

The morning worship services will open the program, with the Rev. L. J. Rogers, the pastor, preaching the sermon.

After dinner on the grounds, there will be music and brief talks by some of the people who have come back to visit their former home community.

An invitation is extended to everyone who once lived in the community.

The former Iron Duff citizens will find some new changes in their old stamping grounds, for the Community Development Program has been working for nearly six months.

One of these changes they will see when they come to the church for services and sit on the new pews that were installed recently.

### N. C. Burley Crop Greater This Year, Says USDA

The U. S. Agriculture Department estimates this year's North Carolina burley tobacco crop is larger than last year's though for the burley-producing states as a whole production is off one per cent from last season.

The Associated Press report of the USDA estimates said North Carolina is producing 18,200,000 pounds of burley this year, compared to last year's 17,304,000.

However, production in Kentucky and Tennessee is off this year.

The estimate of the 1949 crop in all burley states is \$594,665,000 pounds, compared to last year's 620,902,000.

The indicated crop of burley and flue-cured tobacco combined for the nation is 2,025,000,000 pounds—about two per cent greater than last year's. The overall increase, the USDA says, is due to the production of flue-cured, which is up to 1,155,000,000 pounds, compared to last year's 1,090,000,000.

The expectation for life of Americans at 65 now is 13-2-3 years.
