Shocking Disclosure

Comptroller Lindsay C. Warren's disclosure just made that a mere sampling of contracts made by the government revealed more than six million dollars in fradulent payments on settlements, is shocking to say the least. There was only a sampling of the large number of settlements but the comptroller revealed that fraud and bubery are indicated in more than 12 per cent of the

Warren criticized again the 1944 Contract Settlement Act which authorizes contracting agencies to settle their terminated contracts without prior independent audit by another government agency.

The act should have prevented fraud instead of providing only for recovery for payments found later to have been addresdeby traud, Warren said. He compared it to locking the barn "after the house is stolen."

Of more than \$6,250,000 feaudlent payments reported, Warren said, augmently only \$107,882 has been recovered and he predicted not much more will be. He said the Justice Department is not to be criticized on this because of the problem of establishing in court at this date that traud actually existed.

If many more instances of Iraad and bribery turn up, or if the whole is anything like the sample, then we will be convince if that not all of this country's enemies speak foreign languages. No sirce, not by a bank -Shelby Star.

The Same Old Story

Sadress hangs over Washington, N. C. A little four-year old boy picked up an innocent looking .22 rifle. And as most children, as well as adults, played with the sununtil he found the trigger. He pressed the trigger, and a bullet left the barrel and went into the top of the head of a two-year old cousin, as she sat in the lap of an aunt.

target practicing, and left the lone bullet in the rifle.

There are many, and lengthy editorials that could be written on this subject, but we shall let the reader finish this in their own

Similar sadness has been caused night here in Haywood.

Haywood Farms Cost More Phone 700 Than California's

Long ago we were told never to be surprised at any news that came out of

Somehow, we cannot get over the story of the farmer who wrote 600 movie stories, and received 600 rejection notices,

But in that land of undiscouragement, he decided to take one more chance, and here is the clinax of the story. He sold his farm for \$3,000. Just imagine, a California farm for \$3,000. That is lower priced land than here in Haywood.

Anyway, he took \$2,280 of his farm money. and paid it to a movie magazine to print his latest story in full, in the hopes that some movie producer would see it and make a purchase.

Now he is sitting and waiting.

He says if he does not get a buyer, he will get a job and start all over again.

This should end all of the try-try again stories, and more especially since a \$3,000 California farm is involved.

Doubt If It Was Mentioned

Down at Fort Jackson the other day, Governors Kerr Scott of North Carolina and Gordon Browning of Tennessee met to review the National Guard of the 30th Infantry Division and to crewn the queen of the

That would have been a mighty good time for the two governors to have talked over the details of starting work on the Pigeon River Road-between here and Newport.

After all, we don't expect much to be accomplished until the two governors get together on the project, which will be of maternal benefit to both states.

Reversed Procedure

A young Fayetteville man stole a car the other day, and of all places to go to throw off suspicion, he entered a long farm day parade to Smithfield.

There were cops leading the parade, some bringing up the rear, and officers at every street intersection, yet the young man went merrily on his way. He wanted to go to Virginia, but was afraid to cross the state line with the car, so he just ditched the ve- Governor J. C. B. Think nothing of it," the pilot was told. You see I fly a plane, and know just how you felt up there lost in that fog."

Another case of one man's misfortune becoming a blessing for one who understood.

By LAWRENCE GOULD Consulting Psychologist

cannot "own" your wife or husband, even in the sense of "knowing all about" her-or him. Marriage at best is a partial union of two individuals, each with his or her own interests and feelings, and for either to invade the other's privacy by force or subterfuge destroys the spontancity that keeps it alive.

Is disgust a feeling that we have "by instinct"?

Answer! No. It's doubtful whether anything would seem disgusting to a person who had not been trained in childhood to associate that feeling with it, or with something of which it reminds him. Unless he is otherwise "conditioned," every child will do things that appear disgusting to his parents, and while the conditioning is necessary-to keep him from eating decayed food, for instance-you must take care not to make the child feel that it is he himself whom you regard with loathing. Such an impression will riage, you must realize that you do grave harm.
