of them do not have that warm friendliness this hospital has." Mr. Morris is under treatment for two fractured ribs he suffered in the crash. His wife sustained a concussion and bruises and lacerations.

They were scheduled to leave by ambulance for Knoxville Tuesday night or early yesterday to return home by train.

"We couldn't possibly have been treated better," he observed, "and we have had nothing but cheerful efficient attention since we arrived here."

Dr. N. F. Lancaster was Mr. Morris's physician after he was injured.

"He's fine," the patient declared, "both as a physician and as a man."

In conclusion Mr. Morris expressed the hope that the proposed county hospital bond issue would receive a favorable vote in the Oct. 1 election.

"I certainly hope it carries," he said. "The people should support it simply as a service to humanity."

The Morrises just passed through Waynesville on their drive home after their tour of the eastern states, and they didn't see much of it at the time before their car went over the embankment.

But Mr. Morris has seen it since, on his trips to town to make preparations for continuing their home-ward journey.

"It is a pretty place," he observed.

**MORE ABOUT Aunt Ida**

(Continued from Page 1)

home.

Little Aunt Ida was one of the biggest reasons, they said, why the Thursday night events drew an average 500 dancers and more than 800 other people who came to watch.

She had her special fans, too, men women, and children who came to see Aunt Ida.

They'd wait until she'd do her buck-and-wing, then they'd leave. If she didn't do her buck-and-wing until 11:30 p.m., more than four hours after the dance started, they'd still wait until she did.

Aunt Ida's buck-and-wing was the piece de resistance of the square dance menu, like the special spice that rounds out the flavor of the main entrée.

For 68 of her 78 years, she says, she's been doing that buck-and-wing. If there's less vigor in her dance now than there was when she was 10, it isn't immediately apparent to a trained observer.

Though she hasn't stopped the march of the years, the years, on the other hand, haven't stopped Aunt Ida's march, either.

She still averages something like five nights a week dancing, all year 'round.

And to miss a square dance held anywhere within a hundred miles of Waynesville, Aunt Ida would have to be very, very sick.

**IRON DUFF MEETING SET**

By MRS. ROY B. MEDFORD - Mountaineer Correspondent

The Iron Duff Community Development organization will meet at 7:30 p.m. Monday at Davis Chapel.

A special program is being prepared for that night and all are urged to attend.

**MORE ABOUT Tourists**

(Continued from page one)

in service to be extended to the thousands of visitors coming into the 11-county area.

Mrs. Alley said the Association, acting as a regional organization, expects to have local organizations in each of its counties actively engaged in plans for promoting fall and winter business and getting ready for the 1959 summer season.

Membership is open to two types of members—active and associate. Active members are those having facilities directly bearing on the tourist business—hotels, motels, motor courts, tourist homes, country clubs, cafes, restaurants, and similar businesses.

Others who addressed the group in reference to sanitation included District Sanitarian C. B. Thomas of Sylva, Macon County Sanitarian Hobart Collins, and Haywood County Sanitarian Lyle Jones.

In other action, the board of directors voted unanimously to lend the Association's full support to the Cherokee Indian Pageant which is scheduled to open July 1.

The directors decided to draft a constitution and by-laws of the Association and submit it for adoption at the next meeting, which will be held September 21 again in the Commission office here.

They changed the membership year to run from October 1 to September 30, coinciding with the national travel season.

The Association year originally had been fixed to run from August to August, at the July meeting.

They also voted that each director would draw up a list of events to be held in his county, and the lists for all the counties would then be compiled and submitted for inclusion in the Department of the Interior's National Calendar of Events for the 1959 summer season.

They decided, too, that each county would elect an alternate or assistant director who would attend the meetings as county representative in the event that the director could not come.

James P. Meyers, of Bryson City, permanent chairman of the board, presided over the session.

Among those who attended was Charles Ray, chairman of the state parks commission.

Associate members are those engaged in business serving the public and having a connection with the tourist business—banks, retail stores, gift shops, garages, service stations, and the like.

The Polk director will be named later by facility operators in that county.

**Pfc. Moss Assigned To Omaha AF Base**

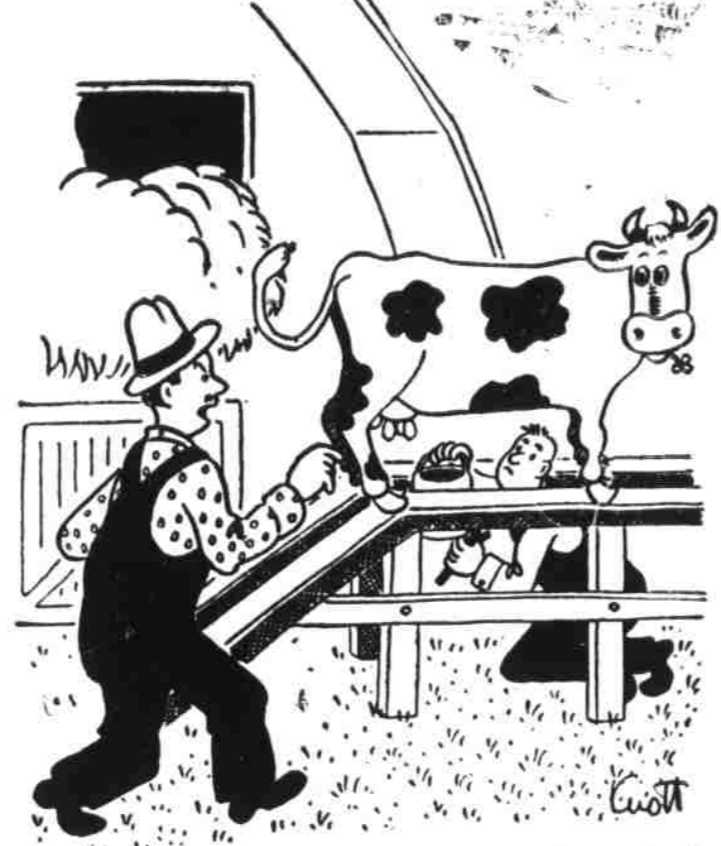

Pfc. William M. Moss, son of Elbert Moss and the late Mrs. Moss of Greenville, was assigned recently to the headquarters squadron of the Strategic Air Command at Offutt Air Force Base, Omaha, Neb.

He came to Offutt from Lackland Air Force Base at San Antonio, Texas, where he had been assigned when he was a recruit.

He attended Greenville and Waynesville Township High Schools.

Before entering the Air Force, he visited his sisters, Mrs. Valor Rogers and Mrs. Eugene Gibson, in Waynesville.

A summary by positions of the training camp rosters of teams in the All-American Conference shows 69 ends, 73 tackles, 62 guards, 40 centers and 162 backs.

"No! No! Baxter — you don't drain her like you do the tractor." TL-36

gaged all the way. That meant the car could reach 60 to 65 miles an hour in second. When the car would go too fast down the mountains, we'd use the footbrake."

In other words, he explained, they depended on low gear for use in an emergency.

That was all right—until they started down the mountain from Soco Gap.

The foot brakes gave out first, then the hand brake went. When Mrs. Morris threw the car in low gear, the clutch burned out.

"From now on," Mr. Morris said, "we'll drive in low going down mountains, and depend on our brakes for an emergency."

Mrs. Morris's quick thinking probably saved them from dying in flames.

When the car was hurtling through the air, her husband said, she thought about fire and turned off the switch.

The car was a complete loss. But there was no fire.

**News From Lake Logan Community**

By IDELLA REECE - Mountaineer Correspondent

Richard Trull has returned home from an Asheville hospital, where he has been undergoing treatment for a hand injury which he received recently.

Mr. Hall, of Cecil, is also suffering from a hand injury, received in an industrial plant.

Mr. and Mrs. Lawrence Reece have a cucumber two feet long, which was grown on their farm.

Peggie Sue Warren lost the first week of school due to an injured foot, which she cut on glass.

Clinton Goodson was among the National Guardsmen enjoying a two-week stay at Fort Jackson. He is the son of Mr. and Mrs. Reuben Goodson.

(Continued from Page 1)

him.

The tension settled again, as silent prayers went up from the lips of the staff that no emergencies would arise, and that no patients would have to be taken in before there were beds available.

The next day, the tension had subsided some, but was still existing, when a call came from the third floor that it looked as if five patients would need the delivery room about the same time.

Four did, and the fifth just minutes afterward.

The main operating room, and the emergency room were put into use, as well as the first aid room.

Another crisis had been averted, but only by minutes.

The crises were coming closer and closer together, and tips quivered again, as the staff thought of the time when their luck would not hold out.

Almost daily the same situations arise, and the only thing that tends to bring relief to the mounting tension, is the thought of 50 more beds when the expansion program is approved by the voters on October 1.

shoe pitching (men and women): (1) Upper Crabtree vs. Saunook, (2) East Pigeon vs. White Oak, and (3) Thickety vs. Iron Duff.

11 o'clock—Girls' softball; tug-of-war; same pairings as at 10 o'clock.

12 to 1 p.m.—Lunch at Concession Stand.

1 o'clock to 2—Singing: Quartet or trio and group.

2 to 4 o'clock—Winners competing for championship.

The general committee in charge of the Field Day is composed of Miss Margaret Green, David Underwood, Stanley Livingston, the Rev. Clyde Collins, Mrs. Clifton Shook, Jack Justice, and Marvin Leatherwood (chairman).

**Loitering Youths Worry Canton School Officials**

The pinfeather boys and the talcum powder boys are aggravating both the traffic problem and the students around Canton High School.

This view was expressed yesterday by Canton City Schools Superintendent A. J. Hutchins.

The labels "pinfeather" and "talcum powder" are the ones he coined to describe the two types of youths he described as nuisances.

The pinfeather boys, he explained, are those who are of high school age but "too triflin' to go to high school." They like to hang around the school grounds.

The talcum powder boys, he continued, are youths and young men over high school age who loiter around the school grounds in hopes of courting the high school girls.

The potential delinquency is one major worry of high school officials, while the traffic problem both types aggravate and add to the worries.

"They come around with their cars at the time when traffic at the school is heaviest," Dr. Hutchins said.

In regard to the delinquency danger, he said the school officials and police are restricted from action by state law.

The law permits action only af-

**Ladies Night Set By Lions Club**

The Waynesville Lions Club will hold a ladies' night program at their regular meeting at 7 p.m. today at the Piedmont Hotel.

Richard Bradley, Club president, will be in charge of the dinner meeting.

Dr. Hutchins said he wrote to Dr. Clyde Erwin, state superintendent of public instruction, this spring when the legislature was in session, but the official could offer no remedy, other than to suggest he believed the state law covered the situation.

The Canton schools superintendent replied to the letter, explaining that the law does not provide remedies.

Dr. Hutchins said one 22-year-old man has been trying to court two generations of high school girls.

"He graduated from high school six years ago, and has been attending college," the official said, "but he, along with others, still keep hanging around the school, all day long."

"We can't have a social for the children," he continued, "without these boys trying to 'crash' the party."

He indicated, however, that action was being planned.

**Landrum Hot In Class A Ball; Leads Texas Loop**

Joe Landrum, the 21-year-old southpaw who pitched the Asheville Tourists to the 1948 Tri-State League pennant, has been named pitcher of the year of the Class A Texas League.

The ex-Clemson and American Legion Junior baseball star has won 17 games for the league-leading Fort Worth Cats so far.

This tops all other pitchers' records in the Class A loop.

Landrum also leads the league in the number of innings pitched. He's worked 254 2/3 innings in the 35 games he's played, and has gone the distance in 16 games.

During that long stretch, he's held Fort Worth opponents to an average of only two and a half runs earned per game.

After ending the season with the Tourists, his first in professional baseball, Landrum was promoted to the Greenville, S. C., Spinners of the Class A South Atlantic League, and then went to Fort Worth.

**REV. G. W. GAINES**

of Atlanta, Ga.,

**Evangelist**

September 11 Through September 25

Rev. Gaines will bring the morning message this Sunday at 11 o'clock, and each night following at 7:30.

Special music at each service under the direction of Miss Mary Linda Jeffries.

Come to these services and hear the grand old story of Redeeming Love preached in its purity and power—the same simple, but glorious gospel that John Wesley, Moody, Spurgeon and other Holy men of God proclaimed in by-gone days.

"Jesus Christ, the same yesterday and today and forever."—Hebrews 13:8.

Not only does Christ perform the miracle of salvation, but through faith in Him, sick bodies are also healed.
