#### State College Hints To Farm Homemakers

By Ruth Current State Home Demonstration Agent

Care in packing away summer clothes this fall will pay dividends next year when warm weather returns. Stains and soil, easy to remove now, may be "set" if left to age on clothing.

Store clothes where they are protected from dust, rust, moisture, mice, insect pests-and also from unnecessary wrinkling or crushing Regiove any pins or metal ornaments which may leave marks. For clothes that have up over the winter standy wooden or plastic hangers are recommended rathe than metal bangers which may leave cust much-

Clothes worth keeping are worth keeping in good condition.

What End of dresses are most constantable for little gurls 2 to 6 years old. Mothers would like to know the answers whether they restudying pattern books or ramsmaging through racks of dresses at

Clothing specialists suggest for little garls dresses without waltines and belts, rimmy sleeves with out outly or bands, and collarless necklines low enough in front to be constortable Short sheeves the say are good for all year round and for summer sleeviless dresses with wings or ruffles.
