

PARADE FOR THE SHAH

AP Newsfeatures

Dear Judge

AP Newsfeatures

There are so many reasons for having a Christmas party. You can make it a Christmas Eve party when festivities begin late, when carols are in order and bacon and eggs are served just before the guests go home. Or you can plan a mid-day Christmas party or a party on Christmas night. It is up to you.

Your invitation to the party can be cut out of red mat paper that measures 12 by 3 1/2 inches. It is folded in half to form a booklet and the cover is pasted with a few attractive Christmas seals. Inside paste scattered snowflakes cut out from lace paper doilies. Leave room to write your invitation and use white or green ink if you want to be effective.

If your guests are to sit at the table and be served a repast, you can make delightful place mats out of dark green mat paper. Make a pattern of a large, full Christmas tree roughly 16 inches wide at the broadest part and 12 inches high. Trace outline on green mat stock and cut out from the doilies and little red dot seals that give the appearance of Christmas tree balls.

Little cone trees make wonderful centerpieces for table or buffet. You roll a piece of red mat stock into a cone about 9 inches high. (Four of them make a tree.) Fasten with paper clips. Then take a square 8-inch doily and cut it into four quarters. Around the outer edges, paste a narrow white crepe-paper ruffle. Then, holding the doily over cone, paste it like a top, paste it over cone. Four of these will make the main part of the tree.

The trunk is made by taking 4 pieces of spool wire, each 13 inches long. Hold them together with one wire held 1/2 inch above the other three. Wrap the wires with red crepe paper to form the tree trunk. Fasten narrow tips of the 4 red cones about 1/2 inch from the top of the tree trunk. To hide the place where the 4 cones are pasted to the trunk at the top, add a narrow white crepe paper ruffle

Largest Power Plant

Architect's drawing of the new steam-electric generating plant to be built at Goldsboro by the Carolina Power & Light Company. Groundbreaking for the 100,000 horsepower station, with ultimate capacity of 400,000 horsepower, is to take place Friday, December 2nd, when Goldsboro celebrates "Electric Power Day." The plant is scheduled for production by mid-1951, and initially will be capable of producing 600,000,000 kilowatt hours of current per year. A few weeks ago, a 750,000,000 kilowatt-hour plant was opened by Carolina Power & Light at Lumberton.

MENU PROBLEM SOLVED

GARDNER, Mass. (UP)—Robert Wetmore solved a temporary eating problem cheaply when he shot a 150-pound black bear. Not only did he get his meat for nothing but he was eligible for a bounty paid in New Hampshire, where the bear was killed.

partner tie the bracelet on her wrist. Appoint one person to serve as "Stop-the-Music Master." His job is to keep turning off the radio or phonograph at irregular intervals without letting the dancing couples know exactly when. Each time the music stops the couples are supposed to stop dancing instantly. The girl whose bracelet jingles the longest after the music stops is eliminated along with her partner. The prize is awarded to the last couple left—the couple with the best jingle control.

At every Christmas party there should be gifts. Naturally a teenage purse doesn't allow for luxury items. A good idea is a Christmas Santa pack. Mom's laundry bag will serve the purpose. Chock full of little inexpensive items, the boys can bring presents for girls and the girls can bring gifts for the boys. Make it a grab bag for Yule fun.

Coon And Possum Hunts In National Forests Are Given

Coon and possum hunting in the Pisgah National Game Preserve and the Santeetlah, Fires Creek and Standing Indian Wildlife Areas in Nantahala National Forest will be permitted this year, according to Clyde P. Patton, Executive Director of the North Carolina Wildlife Commission.

Ten nights of hunting, from December 12-23, will be permitted in the Pisgah National Game Preserve, and ten night of hunting, from December 5-16, in the Nantahala areas. In the Daniel Boone area of Pisgah National Forest, hunting will be allowed only on December 19-23.

Special permits to hunt in the Pisgah Preserve will cost \$5.00 for a party of from one to five hunters. In all other areas special permits will cost \$1.00 per hunter with no limit on the size of the party.

Bag limits on all hunts are one raccoon per hunter per day, with an unlimited number of opossums allowed in the bag. Permits and general information will be available at checking stations in the areas opened to raccoon and opossum hunting.
