AND There was light

When God said "Let there be light," He created the conditions under which life could exist on the earth. Without light, the earth would become a frozen ball, barren, desolate, and lifeless.

It was a great day for the human race when man learned to draw the imprisoned sun-rays from the elements and convert them into heat and light. It marked the beginning of human progress.

Step by step he has advanced from the brush fire to the marvels of electricity. With more light he has increased his knowledge, added to his safety, and improved his living standard.

Religion is the light of the spiritual world, and is essential to the growth and well-being of the soul. The Psalmist said, "The Lord is my light and my salvation,". and the teachings of Jesus are the "true light" for all who will heed them.

Wherever the Bible is accepted as the guide of life, darkness disappears and the light of faith shines in the hearts of men.

THE CHURCH FOR ALL ... ALL FOR THE CHURCH

The Church is the greatest factor on earth for The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are (1) For this own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church reguand material support. Plan to go
