Sentinels of Health Don't Neglect Them! Nature designed the kidneys to do a marvelous job. Their task is to keep the flowing blood stream free of an excess of toxic impurities. The act of living-life itself-is constantly producing waste matter the kidneys must remove from the blood. If good health is to endure, when the kidneys fail to function as Nature intended, there is retention of waste that may cause body-wide distress. One may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes-fed tired, nervous, all worn out. Frequent, scanty or burning passages are some time further evidence of kidney or bladder disturbance. The recognized and proper treatment is a diuretic medicine to help the kidneys get rid of excess poisons-body waste. Doan's Pills. They have had more than forty years of public approval. Are endorsed the country over. Least on Doan's. Sold at all drug stores. DOAN'S PILLS

"And this will be our recreation room!" Jack: "What's you mean, there's no room for a room here?" Mac: "Hold on, I said, 'will be.' We're takin' this old battelship out, and replacing it with a modern Lennox Heating System! And a Lennox is so compact it will take up just a tiny corner down here. We'll have plenty of space for a dandy play room." Jack: "Go on-and I suppose you're infering a Lennox can save anybody lots of extra space, and still keep 'em warm and comfortable. You're probably a special case!" Mac: "Special, my foot! Why, there are complete Lennox systems that can be installed in small recesses, inside walls, beneath floors, even up in attics! What more'd you want?" Jack: "Not a thing, pal-except the name and address of my nearest Lennox dealer."
