PHOSPHATE

An Invitation

Our doors are always open to visitors—just come right on out and give us an opportunity of showing you just how Blue Ridge Plant Foods are blended, and made especially for crops and soils of Western North Carolina.

Visitors will be shown through entire plant by one of the undersigned.

Just come right on out—no appointment necessary.

(P. S. don't wear your best clothes—some of our departments resemble a dust storm—but don't let that stop you, come on out).

C. G. THOMPSON
President

TOM MEDFORD
Superintendent
