**New Vaccine Protects Dog And Man From Rabies**

By PAUL F. ELLIS  
 (United Press Science Editor)  
**NEW YORK (UP)**—Man is helping his "best friend" to overcome a serious and usually fatal disease. Man, in turn, is helping to prevent the same ailment, rabies, in himself.

The new development is a rabies vaccine for dog immunization, described as "the most important step taken toward elimination of rabies as a fatal disease since the work done by Pasteur."

It was Louis Pasteur, the French scientist, who first developed a vaccine against rabies. His work led to the development of vaccines in other diseases.

**Vaccine Made Available To Health Officials**

The new vaccine was developed by Drs. Herald R. Cox and Hilary Koprowski, researchers in the field of virus diseases, and on the staff of the Lederle laboratories division, American Cyanamid Co., Pearl River, N. Y. It was in the same laboratory where aureomycin, a powerful new drug for human use, was first developed.

The researchers, who expect the new material will be made available to all veterinarians and to state sanitary and public health officials, said the vaccine is produced from live virus which has been modified by growth in chick embryos.

It does not contain brain or spinal cord tissue, substances that made the old type of vaccine material somewhat dangerous for human use, and dogs, too for that matter.

In the old type of vaccine, the material was made from killed rabies virus grown in tissues from the brain and spinal cords, or the use of fixed live virus from the same sources.

**Rabies Still Top Problem For U. S. Health Service**

Dr. Cox said rabies, or hydrophobia as it is commonly known, still is a top public health problem. He said:

"In recent years, more than 7,000 cases of rabies in dogs and more than 30 cases in humans have been reported annually, with the probability that a great many additional cases are never reported."

"The fear of rabies is world-wide. The so-called 'reservoir' of rabies exists primarily in the wild animal population of the country and is transmitted from them to the dog. The number of human beings affected seems rather small, but the disease is dreaded because of the horrible convulsions by its victims and the complete certainty of death once symptoms become

apparent.

"Because of the uniform fatality among rabies victims, the great hope of survival in rabies is prevention."

**New Vaccine Has Safety, Long Lasting Value**

The Lederle scientists said the new vaccine has been tested on about 10,000 dogs and that none suffered any serious effects. Some dogs after being vaccinated were injected with the rabies virus, but the disease was thrown off.

They said veterinarians will be able to immunize a dog against rabies by a single injection and that if dog owners would co-operate with the vaccination programs as organized by public health officials, rabies can be controlled effectively and eventually eliminated.

**Pennsylvania to Vermont Our Maple Syrup Better**

**MEYERSDALE, Pa. (UP)**—Meyersdale claims to be the "sweetest, most sugary community in the country."

That is because it is in the heart of the maple syrup producing belt in Pennsylvania. Every year Meyersdale puts on a two-day "maple festival" to celebrate its alleged superiority to Vermont in the quality of its syrup.

The annual challenge to the New England state has been sounded again by the Meyersdale chamber of commerce.

"It takes 100 per cent pure maple

**VOTE FOR Frank M. Davis FOR Board Of Commissioners**

**M. E. "TONY" DAVIS for TAX COLLECTOR**

**SEBE T. BRYSON**

**FOR HAYWOOD COUNTY TAX COLLECTOR**

We are happy to present to the citizens of Haywood County reasons why you should vote for Sebe T. Bryson for Tax Collector at the Democratic Primary on May 27.

1. HE IS ONE OF THE MOST EFFICIENT, AS WELL AS COURTEOUS, TAX COLLECTORS EVER ELECTED.
2. HE IS SERVING HIS FIRST TERM IN OFFICE NOW, AND THE HAYWOOD COUNTY DEMOCRATIC PARTY HAS LONG IDENTIFIED ITSELF BY SUPPORTING A CANDIDATE FOR THE 2ND TERM OF OFFICE, WHEN THE DUTIES HAVE BEEN HANDLED AS HAVE THOSE OF MR. BRYSON.
3. HE IS A PROMOTER OF ECONOMICAL, EFFICIENT AND PROGRESSIVE GOVERNMENT.
4. HE IS A VETERAN OF WORLD WAR II, HAVING SPENT TWO YEARS OF HIS SERVICE IN COMBAT IN THE EUROPEAN THEATRE.

We shall also give to you, the Voters of Haywood County, other interesting information concerning Sebe T. Bryson.

He is a native of Haywood County, the son of Mr. and Mrs. Horace F. Bryson of the Iron Duff Community, and comes from a long line of Democrats.

Sebe seems to find it easy to make friends with all he meets. He is of excellent character and possesses good moral habits. In the last election he attained the amazing record of receiving every vote cast in his home township with the exception of one, which he modestly cast for his opponent. This may have been, in part, the result of his early interest in political affairs. Several years before he became 21 years of age, he was encouraging people to vote by making every effort to give transportation to the polls to members of his community who had no cars.

Sebe is well qualified to fill the office which he now holds. He is a graduate of Clyde High School, and attended Richmond Professional Institute. He is a member of the First Baptist Church of Waynesville, the Lions Club, the Veterans of Foreign Wars, the American Legion, the Young Democratic Club, and has taken an active part in the Community Development Program.

He is a farmer and dairyman in Iron Duff and is active in all agricultural affairs.

**WE ARE PROUD OF HIS RECORD AND ARE HAPPY ONCE MORE TO SUPPORT HIM FOR THIS IMPORTANT OFFICE.**

**SPONSORED BY IRON-DUFF COMMUNITY**
