

Class of '50 Takes Style Honors

HEAD OF THE CLASS... Here are two versions of mid-century styles for graduation day, by New York designers. At left is the almost-sleeveless short dress in fine embroidered organdie with demure buttoned bodice and black velvet belt. At right is the formal commencement dress in gauzy white marquisette with double cap sleeves, tucked bodice, self-covered buttons and grosgrain ribbon sash.

By DOROTHY ROE
Associated Press Fashion Editor

This is a great year to be a girl graduate, because seldom has there been such a wide selection of frothy, flattering commencement dresses to do justice to the importance of the big event. Whether it's a grade school, high school or college commencement, the right dress is ready and waiting at practically every local shop, in crisp sheer fabrics lovely enough for a bride. Prices also are surprisingly reasonable, making it possible for every girl to look pretty as a picture on graduation day.

Top favorite this year is the sheer white dress, in fine imported organdie, starched chiffon, marquisette, dotted Swiss, old fashioned lawn, batiste or voile. Fabrics have never been lovelier, as both

American and imported sheers are available in quantity, both at yard-goods counters and in attractive ready-made frocks.

Most of the styles are planned so that the dresses may double for dates and dress-up occasions throughout the summer. Fitted bodices and full skirts are tops in popularity for graduation sheers, in either long or short versions. Trimmings range from fine embroidery and lace to more tailored tucks and fagoting.

Besides the cotton sheers, nylon marquisette, net and dotted Swiss are in high favor with smart graduates, because of their crisp texture, resistance to rumpling and easy washability. The nylon sheers are not so likely to wilt in damp weather as some of the others, and they're just as gauzy and dainty as the traditional cotton sheers.

June Church Program Set For Francis Cove

By Mrs. Bill Hollingsworth
(Mountaineer Correspondent)

The following schedule for the Francis Cove church program for June was announced today:

First Sunday—the Rev. M. R. Williamson, pastor of the Waynesville Presbyterian Church, guest minister;

Second Sunday—Sunday School program;

Third Sunday—The Rev. J. E. Yountz, pastor of the First Methodist Church of Waynesville;

Fourth Sunday—the Rev. L. G. Elliott, pastor of the First Baptist Church of Waynesville. Sunday School will be held at 1 P. M.

Preaching services will start at 1:30 P. M. each Sunday.

Children's Toys

Playthings everywhere have been influenced by modern science, transportation, and living in general. Among today's mechanical gadgets of play are cars that park themselves, intricate train systems, and lock-equipped canals; little sinks with running water, planes that drop bombs, and chemical sets that use real atomic-energy materials.

Evangelist

THE REV. H. REID SISK of Shelby is currently serving as evangelist for the revival series being held each evening at the Church of God in Hazelwood.

Total timber resources in the public domain in the U. S. are estimated at between \$50,000,000 and \$100,000,000 in value.

Francis Cove To Hold Picnic Wednesday

By Mrs. Bill Hollingsworth
(Mountaineer Correspondent)

A picnic will feature the monthly meeting of the Francis Cove Community Development Program this week.

The meeting will open at 7 p.m.

UKELELES COME BACK

TAMPA, Fla. (UP)—The ukelele is coming back in Tampa. Music merchants reported phenomenal sales and said the instruments were being used even as accompaniment for gospel singing. The Little Chapel Church here has already organized a ukelele band.

Too Many Jobs on Hand For Silver Jubilee

HARDWICK, Mass. (UP)—Mr. and Mrs. Eugene W. Hanson had trouble finding time to celebrate their 25th wedding anniversary.

In addition to running four farms, the school bus, mail transportation system and a herd of 140 cows, Hanson serves as a town assessor, clerk of the farmers' cooperative exchange and secretary of the local milk producers' association.

His wife serves as town librarian, election official, and Grange officer and still does all her own housework.

Louisville, Ky., was named for Louis XVI of France.

According to the U. S. Bureau, the largest record stone was one that fell at Neb., on July 6, 1928. It weighed 142 pounds.

Haywood County MYF Holds Retreat

The Haywood County Methodist Youth Fellowship held a retreat at Lake Junaluska last Friday and Saturday for the newly elected officers.

The group arrived at the Lake about four o'clock Friday afternoon.

The Reverend Paul Taylor, pastor of the Delwood charge, was in charge of Vespers.

Mrs. J. E. Yountz, district superintendent of Youth Work, gave a talk on the duties of officers.

Mrs. C. N. Clark spoke on "Full Time Christian Service".

Mrs. W. T. Medlin, Adult Councilor for the group discussed the Methodist Youth Fund and the Conference Work Pledge.

During the Saturday morning session, plans were made for the programs for the coming year, and the host churches for the coming year.

A business session was held Saturday morning, during which the group voted to send twenty-five dollars to the Youth Fund.

The next meeting of the Sub-district will be the Haywood County Day at the Lake, Sunday, June 4. The Reverend Horace McSwain will be the guest speaker on that day.

Miss Anne Bischoff, president of the group, presided over the morning session. Albert McCracken, vice-president, presided over the Friday night session.

About twenty-two people attend.

Goes Up and Down Down and Out

BUENOS AIRES (UP)—Life had more than its usual ups and downs for the foreman of a demolition crew attacking city blocks to lengthen the world's widest street, Avenida Nueva de Julio.

The foreman decided to take one last look around before going home. He found a pile of bricks on the third floor which should have been sent down. He piled them into a barrel and prepared to lower them to the ground.

1. The barrel then weighed much more than the foreman and went down with a bang. The man clung to the rope and rose to the sixth floor.

2. When the bricks hit the ground, the impact knocked the bottom of the barrel out, making it lighter. Then the man came down and the barrel went up.

3. The man passed out and let go of the rope. Then the barrel came down on his head.

The newspaper Standard commented—"and he did not even get his picture in the papers."

Active volcanoes once existed in nine sections of New Mexico. U. S. Highways 86 and 380 both cross large lava flows in this state.
