

FASHION COUNTS
DENVER—(AP)—When the defendant in a burglary trial appeared in court in rumpled clothing, District Judge Robert W. Steele immediately discontinued the case one day. Then he instructed officers to see that the prisoner was given a change of wardrobe.
Perhaps the judge was recalling that the state supreme court, in 1946 reversed a district court conviction because of the clothing the defendant had to wear at his trial.

EVERY THIRD MILE
Built By Truck Taxes

When you hear someone say trucks get a "free ride," remember that every third mile of road built by North Carolina taxes is paid for by trucks. The more than \$20,000,000.00 they pay every year is enough to provide primary highway maintenance for a normal 3-year period.

More to the point—imagine our highway taxes without trucks to share the cost. Your road taxes would be increased by more than \$20,000,000.00 per year.

Try to imagine North Carolina without the thousands of miles of highway which truck taxes have paid for. Many of the 1,800 communities which depend entirely on truck transportation would be virtually helpless... thousands of farms would be isolated!

Because trucks share the highway, they participate heavily in highway maintenance and construction cost. The result is that North Carolina gets more and better roads—and you get an efficient, economical transportation service second to none in the Nation.
