full cooperation of the town and county in securing the location of plants as reasonably as possible and also by securing a reasonable tax rate. We can contact industry and show what we have to offer.'

Francis Massie; "I think by proper advertising by the Merchants. Association, we could do more than anything else to bring more industry here.

C. D. Ketner: "My idea would be to contact industries which plan expansion, offer them a low tax rate, and inform them on the possibilities of labor.

# **Older Workers Given**

## **Message of Cheer**

CHAMPAIGN, Ill -- Life begins at 40, the saying goes. Therefore, who's too old to work?

According to a survey by the University of Illinois labor and industrial division. Persons 45 years of age or older are finding it easier to get work.

The survey says employers are finding that workers over 45 have fewer days of absenteeism, productivity declines only gradually after the age of 40, older workers have few accidents and injuries. than younger workers, and older workers have experience, patience and judgment

The Jesuits are said to have perfected cultivation in Paraguay of the yerba tree, from which the drink yerba mate is made.

#### Monday morning.

A basket ball game will be played at the Bethel gympasium on February 5 between the men teachers and the women teachers. The event is being sponsored by the P. TA

Name

Address

This picture demonstrates how the new puncture-sealing tubeless tire, now on sale in this area for the first time, can "take it" — and not breathe a sigh. In this destructive spike-board test one spike, under neath, has completely pierced the tire and another, right, is about half way through. But air does not leak out of the tire. A gummy inner layer of special rubber which "surrounds" the piercing objects, then closes the hole when they are withdrawn, gives the new tire its self-
