NATIONAL 4-H CLUB WEEK

MARCH 3-11
A Youth Program of Activity, Adventure and Achievement

David Noland Outstanding 4-H Club Member Of Area

By Anne Bischoff

One of Haywood County's most outstanding 4-H Club members is David Noland who is a member of the Waynesville High School Senior Club.

David is the 17-year-old son of Mr. and Mrs. D. Reeves Noland of the Ratchliffe Cove section of Haywood County.

David started his 4-H Club career back in 1945 when he joined the Fines Creek 4-H Club and decided on poultry as his project.

The next two years he had a pig and then tobacco as his projects.

For the past three years he has made dairying his project, and it is in that field that we find him winning so many honors.

He took up dairying as his project when he left the Waynesville Junior 4-H Club to join the Senior Club.

In 1949 he won the Better Methods Contest in electricity in this county, and received a free trip to the Better Methods Congress in Raleigh. This contest was sponsored by the Carolina Power and Light Company.

In 1948, '49, and '50 he won the dairy production records in this county, and he recently led all the Ayrshire herds in the United States in the D. H. I. A. production record for two months and topped the D. H. I. A. production record of all breeds three times in North Carolina. His project is carried on 15 cows, which he milks, with the aid of a tenant on a 60-40 basis, twice a day.

His dairy is equipped with two sets of electric milkers.

In 1949 and '50 he was selected as the "Most Outstanding Haywood County 4-H Club Boy", and was awarded the Achievement medal for his outstanding 4-H Club work in the county.

He was also a member of the Haywood County Dairy Judging team that won fourth place in the state competition at the 4-H Short Course in Raleigh last year, and ranked seventh on individual scores in the state.

Summer before last he went to

Librarians Study Means Of Aiding Cherokee Drama

Librarians and representatives of libraries from Marion to Murphy met Wednesday afternoon at the Waynesville library to discuss ways of promoting local interest in the Cherokee. Miss Margaret Johnston, librarian, called the group together to meet with John Parris, author of "The Cherokee Story," and follow up the work which has been done during the past year through the cooperation of the group.

It was agreed to continue the same activities which had met with such approval, and in addition to make a list of speakers available for clubs and other meetings, and another list of members of the Cherokee tribe who would be available for various types of programs for adults and children.

The local library has proven the value of book talks and exhibits for adults, a children's story hour, and a reading club. Other possibilities under consideration are essay contests and art and poster contests.

In announcing the results of the meeting, Miss Johnston suggested that organizations desiring to invite Cherokee speakers to their meetings, or to have exhibits of authentic Cherokee crafts contact Miss Mary Ulmer at Cherokee, Miss Ul-

Iowa along with 50 other boys and girls from Haywood County to visit with the Iowa 4-H Clubbers.

In 1949 David served as vice-president of the Waynesville Club.

Besides being in the 4-H Club we find David in the FFA Club for his third year.

Being only a junior at Waynesville High School this year, he will probably achieve many more honors before his 4-H career ends.

David is just a typical Haywood County 4-H'er and Haywood County is proud of David and his achievements.

At The Park Thursday and Friday

Scott Brady and Alexis Smith are co-starred in the new suspense-film "Undercover Girl."

Movie Actress Is Given All Types Of Animals

By GENE HANDSAKER

HOLLYWOOD — Pretty Terry Moore can't figure how it started, but everybody gives her animals. Now it's a six-foot baby indigo snake, black as its name of "Midnight". It's from a snake-farm owner in Florida, where Terry recently did some movie-acting with crocodiles.

"I never liked snakes before, but it's such fun having one of my own," Terry reported. "He's non-poisonous. Has teeth, though—he could bite. But he has a sweet disposition. Wraps himself all around me. He loves to play, or crawl down a tree in our yard and drink and drink from the bird-bath. He loves that rainwater."

Terry said her mother and father "about died" when she brought the snake home in its boxlike suitcase. She kept him in it in her closet but occasionally gave him the run of the house. After a few days, though, she turned him over to Animal Trainer Curly Twiford. Curly keeps him on his movie-animal ranch. In exchange for feeding him, Terry will let Curly keep whatever fees Midnight earns as a movie actor.

"Snakes," she announced

thoughtfully, "are very necessary in this country. If it weren't for snakes, this country would be overrun with rats."

Somebody gave her a chameleon during the filming of "Return of October". After "Mighty Joe Young" she got an eight-inch miniature dummy gorilla used in trick shots. During "Rupert" she was presented with a sparrowhawk used in the picture. In childhood, she owned at various times two ducks, 40 chickens, and uncounted rabbits, cats, and dogs.

Now she's playing with Singer Frankie Lane in "Sunny Side of the Street". Terry wonders fearfully if some prankster may take a cue from his hit record and send her a mule train.

Glimpses of Glammerville: Rugged-looking Howard Keel getting the curling-iron treatment on his hair and mustache for "Show Boat". . . . Producer David Diamond looking through 100,000 feet of Signal Corps, Navy, and captured Japanese film—on a hand cranked machine. He selected 8,000 feet for use in "I Was an American Spy". . . . Steve Cochran commenting about women: "The more I learn about 'em, the less I know."

When Kathryn Grayson Sings, She's 'Bustin' Out All Over'

When Kathryn Grayson sings on the screen, like June, she's "bustin' out all over." Consequently, when a studio designer makes plans for Miss Grayson's wardrobe she has to remember that the 36-inch bust and 21-inch waist are expandable.

"The most embarrassing moment of my life," admits Miss Grayson, "was hitting High C and bursting the seams of an evening gown Helen Rose designed for me."

That unfortunate incident occurred when Miss Rose first came to M-G-M as fashion designer. Today, she knows better than to design anything except a stretchable bodice for the golden-voiced Miss Grayson.

"Today's 'singing dresses' have rubberized tops," explains the noted designer. "Miss Grayson can take all the deep breaths she needs for high notes and still stay in her gowns."

In M-G-M's new melodic romantic comedy, "Grounds for Marriage," in which Miss Grayson co-stars with Van Johnson on the Strand screen, she wears seven-

teen different outfits, many of them striking tomorrow's fashion note. Among the material that went into the dresses were 3,000 yards of silk, satin, velvet and tweeds, to say nothing of 300 yards of elastic.

"Studio designers must be specialists in the unique as well as the chic," Miss Rose declares. "In the 'Carmen' dream sequence of this picture the wardrobe department not only created costumes for the stars but also for the variety of characters used in the background—the midgets, eight-foot-tall men, 300-pound woman, India rubber man and the Siamese twins."

The studio wardrobe department, whose clothes influence women the world over, fills a three-story building on the Culver City lot. Its floors are jam-full of the things which go to adorn the glamorous ladies of the screen as well as the costumes for its leading men. A model of precision, it boasts a catalogue system so perfect that even so remote an article as a glove used in a picture released months ago may be procured instantly, to say nothing of elastic for Kathryn Grayson! Opening Sunday at the Strand.

When Nasty Colds Leave You WEAK AND RUNDOWN HADACOL CAN HELP

If Your System Lacks Vitamins B₁, B₂, Niacin and Iron, Which HADACOL Contains

When a nasty cold leaves you in a weakened and run-down condition, HADACOL can help build you up if your system is lacking in Vitamins B₁, B₂, Niacin and Iron, important elements contained in HADACOL. Many folks have found that this fine family formula helps overcome these deficiencies and soon they feel good again.

Mrs. A. Jimenez, 141 East 13th St., Port Arthur, Texas, gave HADACOL to her young son, Floyd, after he had recovered from a bad cold when she heard how HADACOL was helping folks suffering from deficiencies of Vitamins B₁, B₂, Niacin and Iron. It helped him so much in regaining his strength and energy that Mrs. Jimenez says she is always going to have HADACOL on hand for Floyd.

Here is Mrs. Jimenez's statement: "My son Floyd was very subject to colds. He's eleven years old, and he was run-down, didn't seem to have an appetite at all, and just simply lacked energy. I heard about HADACOL on the radio, and it was about this time that Floyd was just

recovering from a siege of a bad cold.

He was very run-down, lacked an appetite, and I started giving him HADACOL. After about a bottle and a half I could notice an improvement. His appetite picked up and he had increased strength. I think HADACOL has done wonders for Floyd, and can't praise it enough. I have continued to give him HADACOL and intend to always have it on hand for Floyd."

Men, women and children of all ages are praising HADACOL for supplying Vitamins B₁, B₂, Niacin and Iron which their systems lacked. Don't let that "After-Cold Run-down Feeling" drag you down—HADACOL can help you, too, if you suffer such deficiencies. Sold on a strict money-back guarantee. You'll feel great after the first few bottles you take or your money back. Trial size, \$1.25; large family economy size, \$3.50.
