Concert Band In Jubilant Mood On Arrival From State Contest

The Waynesville Concert Band, with the coveted top-place ranking of North Carolina Bands theirs for the second consecutive year, burst forth in song as they arrived at the band building from Greensboro late Wednesday. They were singing a farewell to their bus driver as this picture was made. There were mixed emotions, as the victorious musicians were greeted by friends and relatives. Some cried, some laughed, and others were speechless. (Staff Photo)

Committee Upholds Senator Medford

Haywood county will have a 3-man school board for the next two years. That decision was reached as the General Assembly Conference Committee reported late Wednesday afternoon. The committee had the task of deciding between a bill introduced by Rep. Oral L. Yates, in which he named two additional members to the board. When the bill reached the Senate, the two names were taken from the bill by Senator William Medford.

As a means of settling the controversy, the presiding officers of the two branches of the Assembly, named a committee of five—three from the House, and two from the Senate—to study the proposals, and make a report. The report is final.

Rep. Yates told The Mountaineer this morning from Raleigh: "The absence of representation of a large part of rural Haywood on the Board of Education will set back education ten years. It is my belief, that it will be impossible to get the proposed school board issue passed in an election because of the lack of adequate representation."

Rep. Yates maintained that all high school districts should be represented on the board, and he named Cauley Rogers of Flies Creek, and Jarvis R. Caldwell of Iron Duff as the two additional members. Elected last year were J. Letch Worley, Coleman R. Francis, and J. W. Killian. These three will serve for the next two year term.

Senator Medford said he had nothing against the two men named by Rep. Yates, but maintained that any additions to the board should be by a county-wide vote of the people. He proposed a five-man board to be elected at the next election.

Last Saturday a bill was introduced in the Assembly setting up five districts in the county, and one member of the board to come from each district. Rep. Yates said this morning he was author of the bill. (See Board—Page 8)

Haywood Citizens Have Different Opinions On MacArthur's Dismissal

Insurance Plan Given Approval

Representatives of the Community Development Program, the Haywood County Hospital Board, and the County Commissioners agreed Monday night to adopt a plan of group hospitalization insurance which will cover the entire county. Another meeting is scheduled for next Monday, April 16, at 7:30 for all community officers and whatever other persons they may appoint to help them within their respective communities.

According to the County Agent's office, this is the first time that an entire county has had the opportunity to get group hospital insurance. The plan calls for a minimum of 75 per cent of those eligible to sign up for insurance. Individuals as well as whole families may be covered.

The Community Development Insurance Committee, under the leadership of Mrs. C. O. Newell, has had several plans under consideration for some months. At Monday's meeting the group made a final decision and laid plans for lining up community members to handle the insurance. A representative of the underwriting company will be at the meeting next Monday to go over the details with these community representatives.

This group hospital and surgical insurance plan was designed primarily for persons in rural areas. Since most are self-employed, they do not fall under the usual insurance company definition of a "group working for one employer." The plan calls for hospitalization and surgical insurance, as well as hospital first-aid benefits, for both (See Insurance—Page 8)

Haywood citizens, typical of those over the world, had a difference of opinions in regards to the dismissal of General MacArthur by President Truman on Wednesday. The Mountaineer made a survey this morning, and the comments of seven citizens are as follows:

W. A. Bradley: "I think MacArthur has done a wonderful job over there and I think it is unfortunate that the differences couldn't be worked out without his removal. I think Russia is going to get a lot of comfort from that change."

Col. J. H. Howell, Sr.: "I think MacArthur was right. I don't see how a man can fight a war with his hands tied. I think his dismissal was appeasement to England, France, and India and I don't believe anything could have pleased Stalin better."

Adm. W. N. Thomas: "I have a very high regard for Gen. MacArthur but under our system the commander-in-chief gives orders to the services and every man in uniform should obey."

Mrs. C. B. Atkinson: "As the mother of a son on the way to Korea, I feel that MacArthur's dismissal is a grave mistake. I think MacArthur's experience makes him more capable of handling the situation over there than a new general. I think we are badly in need of a president."

Capt. W. H. Lee: "I am in favor of the president's action. It is the duty of every military man to obey his commander-in-chief. I am a very great admirer of General MacArthur, however, and I think it is unfortunate that he should have placed himself in such a position."

"I consider it highly essential to open up a second front on the mainland of China, and in that respect I agree with General MacArthur's views, but of course he (See MacArthur—Page 8)

Local Red Cross Fund Now Totals \$3,303 To Date

Receipt of \$3,303.60 by the Haywood Chapter, in the Red Cross 1951 Fund Drive, was reported this noon by chapter officials. According to A. J. Fancher and L. K. Barber, co-chairmen of the drive, a few reports are still to be received, but the campaign is over except for "mopping-up" operations. This year's total tops by about \$600 the \$2,700 raised last year. Goal this year was \$5,082.

28 Left Wednesday For Service Exams

Twenty-eight Haywood men left Wednesday morning for pre-induction examinations in Charlotte, according to the Selective Service Board. Results of these tests are expected to be received by the local board the early part of next week.

Louder, Louder And Much Louder

Volunteer firemen who have the day off will need earmuffs when work is completed on the 8-foot tower atop the fire station in Waynesville. The siren is to be placed there so that the sound will carry a greater distance. It is at present directly on top of the building.

Band Again Takes Top State Spot

The Waynesville concert band arrived back home late Wednesday amid a noisy welcome, such as is due conquering heroes. The 50-piece band retained their title rating of "superior" in the group six—the highest in the state—as they played their way to victory Tuesday afternoon in the annual band contest in Greensboro. The band shares honors with Lenoir, and Greensboro. These are the only three bands in the state in the top bracket.

The band, traveling in a Trailways bus, were met beyond the Haywood line by Chief Ossie Sutton and others, and at Clyde many more joined the motorcade, and still many others at Lake Junaluska. Awaiting the musicians' arrival at the school was a large crowd.

With the sirens of highway patrol and police cars blowing, the band was led up Main Street, out through Hazelwood and to the school. The cheers of the students almost drowned the sirens, and the steady blowing of the scores of accompanying horns.

As the band arrived at the band building, a group of students grabbed Robert Campbell, assistant director, and carried him about on their shoulders. Girls rushed into the arms of friends and relatives, and mixed emotions prevailed. Charles Isley, director, remained in Greensboro with the chorus, to participate in the state concert today. This is a non-competitive event.

The band won the same title last year, and in spite of the hard work, and long hours required to master the music designated for group six, the students voted unanimously to remain in the highest group.

Yates' Dog Warden Bill Law; Will Help Farmers

Sheep raisers were given a green light as Rep. Oral L. Yates' state-wide sheep bill became a law Wednesday. The law provides for county commissioners to name a dog warden for the purpose of catching stray dogs to protect farmers in raising sheep and poultry. The bill was introduced early in the session and after passing the House hit a snag in the Senate Finance Committee, but Senator Medford appeared before the group and urged passage of the bill.

Revaluation Bill Given House OK

The House is due to pass the revaluation, and water bills late today. The school district bill is also slated for a place on the House calendar, and looks favorable for early passage. Legislation authorizing the Haywood board of County Commissioners to order a tax revaluation of property next year, has been introduced in the General Assembly. The bill was presented by Rep. Oral L. Yates. The revaluation, which would include real and personal property, would be made as of January 1, 1952, under the measure. The commissioners would have authority to order the revaluation or not, as they see fit. Yates said the bill was introduced at the request of the board of (See Tax Bill—Page 8)

Beaverdam Schools Will Need Almost Million For Meeting Survey Report

Estimates are that between \$700,000 and one million dollars will be needed to carry out the building recommendations of a state school survey committee for Beaverdam schools. The report was made at a meeting of civic leaders Wednesday night.

A. J. Hutchins, superintendent of Canton schools, said the estimates were unofficial, but based on the same square footage cost as other Haywood projects several weeks ago.

The committee followed almost in detail, the recommendations of Mr. Hutchins of six weeks ago. The survey was made upon request of the county commissioners and county school board. A similar survey for the remainder of the county was completed some weeks ago, and totaled slightly more than two millions, not including cost of land or equipment. In view of the fact that \$346,000 is allocated for

Cancer Drive Will Start Monday

The annual Cancer Drive will open in Haywood county Monday morning and will continue until the end of the month. According to Mrs. Richard Scholl of Canton, county chairman, Haywood's quota is \$2,500.

The drive in the Waynesville area will be sponsored jointly by the Waynesville Jaycees and the Secretaries Club with Robert C. Hall and Miss Louise Gaddy as co-chairmen. Committees named to assist chairman are: John Carver, Bob Ferguson, and Paul Sutton from the Jaycees and Miss Rufina Bright and Mrs. Kenneth Stahl from the Secretaries Club.

Chamber Of Commerce To Seek New Industries

The Board of Directors of the Chamber of Commerce approved putting \$1,000 at the disposal of a "new industry" committee, for promotion work. The decision was made at the monthly meeting of the board of directors.

The directors also approved a plan of furnishing each member with a framed certificate, and a colorful emblem for the window of each business firm. The board authorized the banquet committee to proceed with plans of staging the annual banquet. This group is composed of Dr. Boyd Owen, W. A. Bradley, William S. Ray, and M. O. Gallo-way.

Dave Felmet, president, named a special committee of J. H. Woody, Charles E. Ray, Wayne Corpening and W. Curtis Russ to work out details of an industrial program in the near future.

Carl Henry, chairman of advertising, reported several major pieces of promotion in publications, including two pages in The Charlotte Observer, at least two folders and booklets, and other

Highway Record For 1951 In Haywood (To Date) Injured . . . 10 Killed . . . 0 (This information compiled from Records of State Highway Patrol.)

Tomorrow Is Friday 13th

Got your rabbit's foot handy? Or can you find one of those four-leaved clovers you pressed last summer? Better get them both out, along with seven white hairs from a black cat's tail—tomorrow is Friday the thirteenth. Most people have pet superstitions, so much a habit that they may not be aware of them at all. How many times have you crossed your fingers as you said something—trying to keep the devil from getting near enough to hear your wish? Can you let a load of hay go by without making a wish on it? (If you can, you're missing a good opportunity.) The black cat has been a symbol (See Friday 13th—Page 8)
