## 4-H Leaders Appointed At White Oak Meeting; Club Being Reorganized

MRS. GEORGE BORING

Leaders for the 4-H Club were appointed at White Oak Community Development meeting last Saturday. Mrs. Edna Davis and Teague Williams, the new appointees, have called a meeting for this Friday night, May 25, at the home of Mrs. Davis. At this meeting the new officers will be elected for the year, and the club reorganized. It is hoped that all those who already belong to the 4-H Club and those interested in joining will come to this meeting.

Other business taken care of during the meeting included a discussion of the pictures to be taken for the Mountaineer and a final check on the report to be turned in on this community.

Members were reminded that there is still a short time to join the rural hospital insurance plan. June 1 is the deadline now. Many have signed up and more are expected to within the next few days. Persons may sign through their community chairman or Lee Davis at the hospital.

The program committee decided to have a family night at each meeting, with certain families having charge of the entire program. It was felt that each family has ideas as to the kind of program they enjoy, and that it would stimulate interest as well as discover hidden talent. Everyone likes variety, and members all liked the idea. The two families having charge at the next meeting will be the Teague Williams and the James Messers.

The program, under the direction of Mrs. George Boring, chairman, included several selections by the quartet and some group singing. Games were played, and prizes won by Yoder Messer, Olene Fish, Janie Davis' relay team, and Mrs. Yoder Messer.

The meeting was held at the White Oak Community House, with every available seat filled. The meeting was presided over by the chairman, George Boring, Secretary.

## Pasture Supplies Low Cost Feed

COLUMBUS, O.—(AP)—Pasture supplies dairy feed at about half the cost of hay and silage and one-fourth the cost of grain, according to agricultural specialists at Ohio State University. For these reasons, farmers are being advised to provide pasture all season.

Not only are pasture costs low, the experts state, but cows generally produce more when they get good grazing. Young pasture plants, they say, such as alfalfa-ladino-grass meadow, are high in protein calcium and carotene content.

Prayer was read by Mrs. Yoder Messer. Prayer was led by Robert Fisher. Odie Fish led the prayer of dismissal.

The next regular meeting will be June 2 at the Community House.
