

**MORE ABOUT Hazelwood**

(Continued from Page 1)  
made by Waynesville, the water customers that had formerly been buying water from Hazelwood were taken over by Waynesville and Waynesville still insisted upon increasing the water rate. We regret this misunderstanding, but in an effort to co-operate with a neighbor, we did not demand that the tap be closed. The question of the title of these lines was not affected by the main line being tapped into by Waynesville. This question will have to be considered in the final settlement of this matter.  
The Hazelwood officials take the position that in view of their coming town election on June 30th,

that they prefer the newly elected officials to work out an agreement between the two towns. The letter explains:  
If the Board of Aldermen of Hazelwood pays this bill, they have weakened the position of the incoming Board of Aldermen in working out a new long term agreement. Hazelwood might just as well demand that Waynesville pay its sewer charge of \$5,000.00 and leave the other matters to be settled in the long term contract by the new Board. The Hazelwood Board cannot put its successors in this position. It does not believe that the people of Waynesville and the friends of Waynesville that live in Hazelwood expect the Board of Aldermen of Waynesville to take this stand.  
Hazelwood has never objected to

paying a reasonable rate for its water to Waynesville. It has only asked that the matter of the rate be left to a new Board elected by the people with the understanding that they were to negotiate the new water rate and settle the other matters at the same time. We think this is the democratic way. We believe that the present Board, who will be in office less than a month, should not be called upon to prejudice the bargaining position of its successors about a matter as important as this."  
It was expressed by Mr. Medford, that "The two boards of aldermen (Waynesville and Hazelwood) should be able to sit around a conference table and with mutual respect for each other's rights, arrive at a water rate that is fair and settle the matters that are out-

**Graduates**

Sarah Margaret James, the daughter of Mr. and Mrs. J. C. James of Waynesville was awarded her A.B. degree in sociology with related fields in history and religion.  
An honor student her name is listed on the academic Dean's List on the basis of her high scholastic achievement.  
Before attending Meredith, Miss James attended Mars Hill College. At Meredith she has been a member of the Sociology Club, the Psi Chi Club, the YWA, the Alpha Kappa Delta, a national sociology society, the Folk Dance Club, and the Philaretia Society.

standing."  
A spokesman for the Town of Hazelwood said that the details of the sewer controversy had not been brought in the open prior to the latest demand from the Waynesville board. "Now the people of Hazelwood want to know why the so-called \$5,000 water bill has not been paid, and this letter should be the answer," the spokesman continued.  
The election for Hazelwood is set for June 30th, and in Waynesville, the town election will be July 17th.

**Memo from the U.S.A.**

We Americans don't get mad easy. But when we do, look out!  
We pitch in and turn out guns, tanks, planes and ships faster than anybody else on earth.  
But nobody boots us into line. No commissars. No bayonets. No slave labor. We just get to work-- because we've got something to work for . . . our liberties and our freedoms.  
And back of our men and machines is electric power--as much as all the rest of the world has.  
It's steady, dependable power--the kind provided by our business-managed electric light and power companies--the kind that helped perform production miracles in World War II. Today, these companies have doubled the supply of electric power available before that war--and they're stepping it up all the time.  
Yessir, we have power--with more on the way--and we know how to use it. That's a good thing for everybody to remember right now. And it's a good thing for some people here at home to remember when they say "the government" could do a better job of running the electric light and power business.
